General description	Continue the learning process initiated in the course Financial Accounting I regarding the elaboration and communication of					
	financial information. Students should be familiar with the accounting standards and they should understand how their					
	application affects the figures reflected in the financial statements.					

	Study programme competences
Code	Study programme competences
A1	Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and
	weaknesses
A2	Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned
АЗ	Evaluate and foreseeing, from relevant data, the development of a company.
A4	Elaborate advisory reports on specific situations of companies and markets
A5	Write projects about specific functional areas (e.g. management, marketing, financial) of the company
A6	Identify the relevant sources of economic information and to interpret the content.
A7	Understand economic institutions as a result and application of theoretical or formal representations which explain the evolution of the
	economy.
A8	Derive, based on from basic information, relevant data unrecognizable by non-professionals.
A9	Use frequently the information and communication technology (ICT) throughout their professional activity.
A10	Read and communicate in a professional environment at a basic level in more than one language, particularly in English
A11	To analyze the problems of the firm based on management technical tools and professional criteria
A12	Communicate fluently in their environment and work by teams
B1	CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary
	education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their
	field of study
B2	CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demostrated
	by means of the elaboration and defense of arguments and solving problems within their area of work
В3	CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include
	reflection on relevant social, scientific or ethical
B4	CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled
B5	CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy

B6	CG1-Perform duties of management, advice and evaluation in business organizations
B7	CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships
	between them and with the overall objectives of the organization
B8	CG3- Know how to make decisions, and, in general, assume leadership roles.
B10	CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal
	opportunities, non-discrimination and universal accessibility for people with disabilities.
C1	Express correctly, both orally and in writing, in the official languages of the autonomous region
C4	To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose
	problems, formulate and implement knowledge-based solutions oriented to the common good
C5	Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs
C6	Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.

Contents		
Topic Sub-topic		
Conceptual framework and accounting regulation.	1.1 Why do we need accounting standards?	
	1.2 The conceptual framework.	
	1.3 International and Spanish accounting standards.	

2. Inventory.	2.1 Accounting treatment of inventory under the Spanish General Accounting Plan.
,	2.2 Lower of cost or market rule.
	2.3 Disclosure in the financial statements.
3. Recognition of revenue.	3.1 Revenue recognition revisited. Problem areas.
5	3.2 Sales returns and allowances.
	3.3Long-term contracts.
	3.4 Disclosure in the financial statements.
Receivables and accounting payable. Specialised topics.	4.1 Recognition and measurement.
31.,	4.2 Transfer of receivables.
	4.3 Transactions in foreign currencies.
	4.4 Disclosure in the financial statements.
5. Taxation I	5.1 Taxation of corporate income. General framework.
	5.2 The cost of income taxes. Recognition issues.
	5.3 Deferred tax accounting. The balance sheet approach.
6. Taxation II	6.1 Deferred tax accounting. Extensions.
	6.2 Disclosure in the financial statements.
	6.3 Value Added Tax (VAT)
	6.4 Other taxes.
7. Tangible assets. Specialised topics.	7.1 The capitalisation decision: borrowing costs, dismantling costs, and heavy
	maintenance.
	7.2 The valuation decisions. Increase/decrease in value along the holding period.
	7.3Disclosure in the financial statements.
8. Intangible assets.	8.2 Recognition and measurement.
Ğ	8.3 Research and development costs.
	8.4 Goodwill.
	8.5 Disclosure in the financial statements.
9. Financial investments.	9.1 Definition and types.
	9.2 Recognition and measurement.
	9.4 Disclosure in the financial statements.
10. Debt and other funding sources.	10.1 Recognition and measurement of debt.
, and the second	10.2 Leasing.
	10.3 Grants.
	10.4 Disclosure in the financial statements.
11. Provisions, contingent liabilities, and employee benefits.	11.1 Provisions vs contingent liabilities.
	11.2 Recognition and measurement of provisions.
	11.3 Employee benefits.
	11.4 Disclosure in the financial statements.
12. Basic financial statements.	12.1 The balance sheet.
	12.2 The income statement.

	Methodologies
Methodologies	Description
Guest lecture / keynote speech	The teacher presents the main concepts that students need to solve the accounting problems covered in the course.
Directed discussion	Discussion of the proposed topics. Both the strength of the arguments used and the ability to defend them in front of the rest of the students are valued.
Multiple-choice questions	Mid-term multiple choice test on an unspecified date.
Workshop	Work in groups to solve exercises and cases, both in the classroom and out of the classroom. The teacher will guide this work.
Objective test	Final exam covers both theoretical and practical issues.

Personalized attention			
Methodologies	Description		
Directed discussion	The accounting problems proposed to be solved in the classroom are designed to help students in understanding the		
Workshop	accounting concepts and in becoming familiar with the accounting technique. With this aim, students will be guided by the		
	teacher, so that they can solve, on their own, the proposed cases.		
	Group tutorials (4 hours distributed along the term) will be used to discuss those complex cases that requiere a higher degree		
	of personal attention. For these tutorials, the group will be split into two small groups (15 students, aprox.). If possible, group		
	tutorials will be held either in the previous or the posterior time slot in which students have their classes.		

Assessment			
Methodologies	Competencies	Description	Qualification
Objective test	A1 A8 B3	The final exam, covering both theoretical and practical issues, will be held on the date 50	
		set by the Faculty.	
Multiple-choice	A4 B1	Mid-term multiple choice test.	10
questions			
Workshop	A5 A9 A10 A11 B6 B8	Learning out of the classroom based on solving exercises and cases will be assessed	40
	C5 C8	by means of small individual written tests.	

Assessment comments

The proposed methodology seeks two main objectives: i) to create incentives for the student to work on a continuous basis along the term, and ii) to promote self-study strategies. With this aim, the student is asked to:

- 1.- Prepare, either individually or in group, the questions designed by the teacher to be discussed in the classroom. Both the strength of the arguments used and the ability to defend them in front of the rest of the students are valued. The student can get up to 1 extra point to be added to the mark obtained in the continuous evaluation (workshop + mid-term test). The maximum final mark for the continuous evaluation is 5 points.
- 2.-On a weekly basis, students must solve the exercises and cases proposed by the teacher. Team work is highly recommended to discuss the possible solutions. At the begining of one of the two sesions of the weak, the teacher will present a small case, similar to those designed to be solved out of the classroom. Students must solve the case individually and the teacher will collect the written solutions. At the end of the term, the teacher will choose, on a ramdom basis, four of these written exercises to be marked.

As for the final exam, students should take into account the agreements of the Executive Committee of the Faculty of Economics and Business (6th July 2011).

- -Absent qualification. This qualification will be assigned, exclusively, to those students that had participated in evaluation activities with a weighting lower than 20% of the final qualification, independently of the mark obtained in these activities.
- -Final exam. It is forbiden to access the classroom where the exam is held with any machine that allows communication with the outside and/or the saving of information.
- -Evaluation in the July option. The evaluation criteria used in the first option applies also in the July option.
