General description	A dirección estratéxica, para ser eficaz, exige entender os factores últimos responsables do rendemento da empresa e ser capaces de identificar os cambios (internos y externos) que poden afectar ó desempeño futuro da empresa. Neste curso, exponse ó alumno unha ampla variedade de marcos e metodoloxías da dirección estratéxica moderna co fin de axudarlle a desenrolar as habilidades necesarias para afrontar con éxito a responsabilidade do desenrolo estratéxico dunha empresa ou de unha unidade de negocio dentro dunha empresa. Exploraranse unha ampla gama de problemas estratéxicos, centrándose en particular nas fontes de ventaxa competitiva e a interacción entre a estrutura da industria e os recursos e capacidades da empresa.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The conceptual framework will be presented during the classes. Theories will be aligned with the cases of study, in order to provide a complete vision of the application of strategic management into practice. Inductive and deductive methods will be used. The time devoted to each of the chapters in which the subject will be divided in proportion to its extent and degree of difficulty in its preparation.

Case study	<p>The teacher will present the analysis of different real companies framing each of them in the appropriate sections of the course contents.</p> <p>Through each of the cases, students and teacher engage in a process of analysis and deep discussion about the circumstances facing each of the companies analyzed.</p> <p>The teacher will present the analysis of different real companies framing each of them in the appropriate sections of the course contents.</p> <p>Through each of the cases, students and teacher engage in a process of analysis and deep discussion about the circumstances facing each of the companies analyzed.</p>
Oral presentation	All students have to participate actively in all sessions. The conclusions of supervised projects will be also defended in open session to the rest of students.
Supervised projects	Students will work following the methodology of case of study in order to analyze a business case from the strategic management approach.
Short answer questions	Test of short answers, multiple choice or a combination thereof. The date of the exam will be planned in the official calendar of examinations prepared by the Faculty Board.

Personalized attention

Methodologies	Description
Case study Oral presentation Guest lecture / keynote speech Supervised projects	In master classes, the teacher will address each of the issues raised by students during their development relating to the subject. If the issues raised require broader responses, the teacher will offer to the student a complementary explanation during the tutorial sessions. Answers to previous questions can be posted on Moodle, in order that other students can take advantage of it. During the sessions of case of study, students must intervene to ask, clarify or explain their different approaches. The teacher will provide support to the working groups in the classroom and also in the tutorial sessions.
