Assessment comments
Students' active participation will be monitored continuously. Regular class attendance is required, however students with special dispensation must inform teachers beforehand. A series of practical tasks, including text analyses, class presentations or writing essays, will be set throughout the course in relation to the course contents. These will also include the completion of a small research Project (oral presentation). The following factors will be considered, among others, in the assessment of the student's completion of the set activities: ability to summarize and combine information from different sources; clarity in the presentation of ideas; accuracy in the use of specialized concepts and terminology; involvement in seminars and group or cooperative activities; rigor and originality in the formulation of research proposals; comprehensiveness and punctuality in the analyses and the realization of the set tasks in general; and use of an appropriate academic style.
