	Methodologies
Methodologies	Description
Workshop	The teacher acts as a mentor author, modeling writing techniques and conferring with students as they move through the
	writing process. Direct writing instruction takes place in the form of a mini-lesson at the beginning of each workshop and is
	followed by a minimum of 45 minutes of active writing time. Each workshop ends with a sharing of student work.
Long answer / essay	These long answers should be
questions	FOCUSED: Your response should answer all parts of the question without a lot of random ideas which have little or nothing to
	do with the question.
	STRUCTURED: You know the answer to the question but your ability to communicate that knowledge to your professor
	depends on how well you structure your answer.
	DOCUMENTED: Contrary to the True/False or Multiple Choice Question, your essay answer must go beyond a simple
	statement of fact.
	WELL PRESENTED: Students who do not use the accepted rules of English are often tought to be less competent or
	knowledgeable than those who do. I
Completion exercises	These exercises involve selecting the best word or pair of words from a list to complete the sentence. In some other cases the
	students will have to rewrite the sentence in order to gain flexibility in the language.
Seminar	Writing Seminars all focus on the skills necessary for effective critical reading and writing. Students, through practice and
	guidance, master essential strategies and techniques of academic inquiry and argument.
Critical	A critical bibliography is primarily a test of your critical appraisal skills: can you analyze the central concepts and arguments of
bibliographical	the material, as well as summarize its content?
Collaborative learning	Collaborative learning is a method of teaching and learning in which students team together to explore a significant question or
	create a meaningful project. A group of students discussing a lecture or students from different schools working together over
	the Internet on a shared assignment are both examples of collaborative learning.

will be assessed in either of the opportunities according to the same

criteria specified for the second opportunity.

Students who neither sit their tests in January or July will be scored "No presentado", if more than 50% of activities during the course are not submitted, they will be scored "suspenso"
