General description	En esta asignatura se detallan los conceptos del trabajo en cooperación internacional para el desarrollo, desde la óptica de la ingeniería civil. El objetivo es presentar los organismos que realizan proyectos de cooperación (ONG's, organismos internacionales, empresas, administraciones), explicando cómo trabaja cada uno. Se explica la preparación de un proyecto de cooperación, en especial en los apartados de ingeniería del agua y del medio ambiente, cartografía y GIS, ámbito de trabajo fundamental de los profesores de la asignatura.
