General description	This asignatura pretends the dev	elopment of con	npetitions that allow	w to the alumnado cor	mprise and apply the knowledge
	related with the medical Rehabili	tation in the adu	It with physical disa	ability.	

	Study programme competences / results			
Code	Study programme competences / results			
А3	Sintetizar y aplicar el conocimiento relevante de ciencias biológicas, médicas, humanas, psicológicas, sociales, tecnológicas y			
	ocupacionales, junto con las teorías de ocupación y participación.			
B2	Resolver problemas de forma efectiva.			
B5	Trabajar de forma colaborativa.			
В6	Comportarse con ética y responsabilidad social como ciudadano y como profesional.			
В7	Comunicarse de manera efectiva en un entorno de trabajo.			
В8	Capacidad de análisis y de síntesis.			
В9	Capacidad de aplicar los conocimientos a la práctica.			
B10	Conocimientos básicos de la profesión.			
B11	Capacidad para trabajar en un equipo interdisciplinar.			
B12	Conocimientos generales básicos sobre el área de estudio.			
B14	Habilidades interpersonales.			
B29	Trabajo en equipo.			
C4	Desarrollarse para el ejercicio de una ciudadanía abierta, culta, crítica, comprometida, democrática y solidaria, capaz de analizar la			
	realidad, diagnosticar problemas, formular e implantar soluciones basadas en el conocimiento y orientadas al bien común.

knowledge and oriented to the very common, respecting the Human Rights and cuidar the sustainability of the			
half-environment.			

	Contents
Topic	Sub-topic
PROF. SERGIO SANTOS DEL RIEGO	
Subject 1 SCIENCES OF THE HEALTH: GENERALITIES.	- Contextualización Historical interdisciplinar.
	- Physical medicine and Rehabilitation and relation with Occupational Therapy and
	other Sciences of the Health.
	- Foniatría And Logopeda. Performances and Pathologies.
	- Other appearances.
Subject 2 REUMATOLOGIC REHABILITATION.	- Basic and general foundations of Medical Rehabilitation Reumatológica of interest
	for the occupational therapist:
	- Rheumatisms of soft parts.
	- Rheumatisms degenerativos: basic Approach.
	- Rheumatisms inflamatorios: basic Approach.
	- Therapeutic integral interdisciplinar.
Subject 3 TRAUMATOLOGIC REHABILITATION.	- General and main concepts fractures of upper member, column and inferior member.
	- Synthesis of the therapeutic rehabilitadora traumatológica integral and
	interdisciplinar.
	- Burns.
Subject 4 SENSORIAL REHABILITATION.	- Hierarchical levels of operation of the brain.
	- Synthesis of the Methods neuromotrices of neuromuscular facilitation propiceptiva in
	the adult with physical disability.
	- Visual disability of the adult.
	- Auditory disability of the adult.
Subject 5 BASIC AND GENERAL FOUNDATIONS OF	- Synthesis of the therapeutic rehabilitadora neurológica integral and interdisciplinar.
MEDICAL REHABILITATION NEUROLÓGICA AND	- Synthesis of the therapeutic rehabilitadora cardio-respiratory integral and
CARDIO-RESPIRATORY.	interdisciplinar.

PROF. ANTONIO MONTOTO MARQUÉS	
Subject 6 REHABILITATION IN PEOPLE WITH CEREBRAL	6.1ACCIDENT CEREBROVASCULAR (ACV).
DAMAGE: basic and general Foundations of Medical	- Appearances epidemiológicos.
Rehabilitation Integral of interest for the occupational	- Types of ACV and clinical Profiles.
therapist.	- Clinical: deficits neurológicos.
	- Diagnostic.
	- Treatment rehabilitador: prognosis of functional recovery. Assessment of the deficits
	(scales). Contribution of the Rehabilitation in the acute phase. Aims of the
	Rehabilitation motora. Intervention to improve the function. Technicians of
	reeducation. Intervention on the areas perceptiva and cognitive. Ortesis And technical
	helps.
	6.2 TRAUMATIC BRAIN INJURY (TCE).
	- Definition.
	- Epidemiology.
	- Focal injuries. Damage axonal diffuse.
	- Measured of results in the TCE.
	- Levels of answer in the TCE grave.
	- Types of deficits.
	- Boarding of the cognitive deficits and conductuales.
	- Strategies of the Rehabilitation in the acute phase: intervention of the Occupational
	Therapy.
	- Strategies of the Rehabilitation in the phase subaguda: intervention of the
	Occupational Therapy.
	, , , , ,
Subject 7 AGNOSIAS.	- General considerations on the sensory systems.
	- Concept of agnosia.
	- Types of agnosias: visual, auditory, look-space, others.
	- Evaluation standardised.
	- Therapeutic intervention in the distinct types of agnosias.
Subject 8 APRAXIAS	- Concept.
	- Types of apraxia: motoras, constructive, of the course, buco-facial, between others.
	- Evaluation standardised.
	- Therapeutic intervention in the distinct types of apraxia.
Subject 9 APHASIAS.	- Concept.
	- Types of aphasia.
	- Difference with other disorders.
	- Assessment.
	- Approximation to the treatment.

PROF. ANTONIO RODRÍGUEZ SOTILLO.	
Subject 10 REHABILITATION IN PEOPLE WITH	9.1 INTRODUCTION TO THE MEDULLARY INJURY:
MEDULLARY INJURY.	- Definition
	- anatomical and functional Memory
	- historical Antecedents
	- Epidemiology of the injury medula of cause medica and traumatic
	- Pathophysiology of the medullary injury
	- anthropological Appearances of the medullary injury in Galicia and in the world
	9.2 NOMENCLATURE:
	- Level Neurológico
	- Classification ASIA
	- clinical Syndromes
	- functional Levels.
	- Objective of the treatment. Provision in people with medullary injury (technical Helps
	and chairs of wheels by level neurológico).
	- Patocronia Of the treatment of Rehabilitation.
	- Prognosis of the medullary injury.
	9.3 MEDULLARY INJURY. ACUTE PHASE.
	- I diagnose and frequent errors.
	- Studies radiológicos.
	- Clinical consequences and treatment.
	- Treatment of the osseous injury. Provision in people with Medullary Injury (Ortesis).
	- Medullary salvation.
	9.4 COMPLICATIONS OF THE ACUTE MEDULLARY INJURY And CHRONIC.
	- Consequences of the medullary injury.
	- Complications acute phase.
	- Consequences of the chronic medullary injury.
	9.5 INTEGRAL TREATMENT OF THE MEDULLARY INJURY, COSTS And
	PREVENTION.
Subject 11 DISORDERS DO MOVEMENT, THE BALANCE	- Parkinson.
AND THE COURSE. ILLNESSES DESMIELINIZANTES.	- Esclerosis Multiple.
	- Others.
Subject 12 ATAXIAS. ILLNESSES OF FIRST AND SECOND	- Ataxias.
NEURON. MYOPATHIES.	- Lateral sclerosis Amiotrófica (ELA).
	- Neuropatías.
	- Myopathies.
	- Others

Subject 13 POLITICAL OF MANAGEMENT IN	- Introduction to the management in Rehabilitation. Areas of clinical management.
REHABILITATION. PROVISIONS.	- Catalogue of provision SERGAS.
	- Catalogue provision for people with medullary injury.
	- Technical helps and chairs of reudas.
	- Ortesis.

	Methodologies
Methodologies	Description
Guest lecture /	The masterclass is also known eat "Conference", "Method expositivo" or "Lesson magistral".
keynote speech	This last modality is used to reserve to a special type of lesson given by a professor in special occasions, with a content that
	supposes an original preparation and based in the almost exclusive use of the word like road of transmission of the information
	to the audience.
Case study	Teaching-learning method in which students are presented with a specific set of real-life circumstances and a problem
	(?case?) which they must attempt to understand, assess and solve as a group through a process of discussion. Students
	should be able to analyse a series of facts relating to a particular area of knowledge or activity, and arrive at a rational
	conclusion via a process of discussion within small work groups.
Introductory activities	Activities that carry out before initiating any process of education-learning to end to know the competitions, interests and/or
	motivations that possesses the alumnado for the attainment of the aims that want to reach , linked to a formative program.
	With her it pretends obtain notable information that allow to articulate the teaching to favour effective and significant learnings,
	that split of the previous knowledges of the alumnado.
	It allows to purchase the competitions of start and adaptation of this asignatura.

Personalized attention					
Methodologies	Description				
Case study The personalised attention will do , as a whole, by means of tutorías personalised direct and virtual, individual and grupales, i					
	the realisation of the diverse works proposed by the profesorado.				

Assessment				
Methodologies	Competencies /	Description	Qualification	
	Results			

Guest lecture / keynote speech	A3 B6 B7 B10 B11 B12 B29 C4	Only examination gives session maxistral and estudo of cases by oportunidade. To matter compórtase, avalíase and revísase like an everything. To suspend, do not save cualificacións parciais of "parts of examination".	100
