Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Oral presentation by the teacher, complemented by use of audiovisual media and the introduction of some questions to the students, in order to impart knowledge and objective learning. Objective assessment of student participation in the sessions.
Workbook	Critical readings, comments and practical exercises that students must perform, as directed by the teacher in class. If you have not attended class the day on which the relevant practice takes place, it may deliver Moodle in 48 hours (if the nature of the practice allows), keeping in mind that you will have less score if it was delivered in class.
Objective test	Oral or written examination with questions or comments text. The review must reach at least 25% of correct questions to do average with the rest of the ratings. Students in the opportunity June not reach 50% of the course, once summed all of the above methods, you will save on the 2nd opportunity in July corresponding to "Reading" rate and "Lecture" and it will be added to the mark obtained in the "Objective Test" July. Student who has made only 20% (or less) of the part of "workbook" and 20% (or less) of "Guest lecture/keynote speech" will be presented to the "objective test" whose qualifications will be 100%; both the opportunity to June as July.

Personalized attention	
Methodologies	Description
Workbook	It will be for readings, guiding each student on the work he has to do, how to do and information sources used. Tutorial hours for any queries on the matter be established.
