| General description | A materia centrase no análise das estruturas organizativas das empresas no mundo real.                |        |  |           |  |  |

| Study programme competences / results |   |
|---------------------------------------|---|
| Code                                  | Study programme competences / results   |
| A1                                    | Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and weaknesses   |
| A2                                    | Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned   |
| A3                                    | Evaluate and foreseeing, from relevant data, the development of a company.  |
| A4                                    | Elaborate advisory reports on specific situations of companies and markets  |
| A5                                    | Write projects about specific functional areas (e.g. management, marketing, financial) of the company   |
| A6                                    | Identify the relevant sources of economic information and to interpret the content.   |
| A8                                    | Derive, based on from basic information, relevant data unrecognizable by non-professionals.   |
| A9                                    | Use frequently the information and communication technology (ICT) throughout their professional activity.   |
| A10                                   | Read and communicate in a professional environment at a basic level in more than one language, particularly in English  |
| A11                                   | To analyze the problems of the firm based on management technical tools and professional criteria   |
| B1                                    | CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their field of study |
| B2                                    | CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demonstrated by means of the elaboration and defense of arguments and solving problems within their area of work  |
| B3                                    | CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include reflection on relevant social, scientific or ethical   |
| B4                                    | CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled  |
| B5                                    | CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy  |
| B6                                    | CG1-Perform duties of management, advice and evaluation in business organizations   |
| B7                                    | CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships between them and with the overall objectives of the organization   |
| B8                                    | CG3- Know how to make decisions, and, in general, assume leadership roles.  |
| B10                                   | CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal opportunities, non-discrimination and universal accessibility for people with disabilities.   |
| C1                                    | Express correctly, both orally and in writing, in the official languages of the autonomous region   |
| C4                                    | To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose problems, formulate and implement knowledge-based solutions oriented to the common good  |
| C5                                    | Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs  |

|    |   |
|----|---|
| C6 | Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions       |
| C7 | Assume as professionals and citizens the importance of learning throughout life.  |
| C8 | Assess the importance of research, innovation and technological development in the economic and cultural progress of society. |

| Learning outcomes   |                                  |  |
|---|----------------------------------|--|
| Learning outcomes   |                                  | Study programme competences / results  |
| Aplicar á análise dos problemas criterios profesionais baseados no manexo de instrumentos técnicos e difundir o uso das novas tecnoloxías                             | A3<br>A9<br>A11                  | B1<br>B2                               |
| Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida y fomentar los valores del esfuerzo, trabajo, formacion continua e iniciativa privada |                                  | B3<br>B4<br>C4<br>C5<br>C6<br>C7<br>C8 |
| Saber facer a presentación oral e escrita dun proxecto de xestión e análise da estrutura organizativa dunha empresa e comunicarse con fluidez non seu contorno        | A10<br>A11                       | B5<br>B6<br>C1<br>C5                   |
| Expresarse correctamente, tanto de forma oral coma escrita, nas linguaas oficiais da comunidade autónoma.   |                                  | B7<br>C1<br>B8                         |
| Desenvolverse para o exercicio dunha cidadanía aberta, culta, crítica, comprometida, democrática e solidaria.   |                                  | C4                                     |
| Saber deseñar organigramas e realizar análise das competencias dos diferentes postos de traballo, base para emitir informes e proxectos de xestión                    | A1<br>A2<br>A4<br>A5<br>A6<br>A8 | B10                                    |

| Supervised projects | A1 B2 B3 B4 C1         | Traballos en grupo e exposición oral dos mesmos. | 50            |
| Objective test      | A8 B7 B8               | Examen tipo test                                 | 50            |

| Assessment comments   |  |
|---|--|
| Considérase que un alumno está dentro da evaluación continua e, polo tanto, se lle aplicará o esquema de evaluación anterior, se realizou máis dun 20% dos trabajos e casos prácticos encargados. Polo tanto, este alumno se non alcanza o cinco, estará "suspenso" nas actas da materia aínda que non se presente ao exame. Este sistema de evaluación manteñese tanto para a primeira oportunidade coma para xullo. Os traballos grupais tutelados realizanse ao longo do curso e non é posible a súa realización fóra do período lectivo. Os alumnos a tempo parcial deberán comunicarollo ós profesores. Nestes casos, os profesores valorarán a adaptación dos criterios de evaluación. Para o cálculo da nota media final, será preciso obter unha nota mínima de 4 puntos sobre 10 puntos no exame (non se calculará a nota media dos alumnos que obteñan unha nota menor que esta no exame). Para superar a materia, a nota media ponderada final deberá ser igual ou superior a 5 puntos sobre 10. Recuérdase que está prohibido acceder ao exame con calquera dispositivo que permita a comunicación co exterior e/ou o almacenamiento de información. Así mesmo, recuérdase que calquera alumno sorprendido realizando o exame ou traballo mediante calquera procedemento fraudulento se lle asignará unha nota de cero na convocatoria. |  |
