Methodologies	Description
Guest lecture /	Theoretical contents will be presented in Guest lectures. Lecturers will focus on those issues which more difficulties to be
keynote speech	understood. To support these classes, spreadsheet and presentations will be used.
Case study	A set of teaching cases will be given to our students. They will analyse, discuss or/and solve them individually or in groups.
	They must use the spreadsheet as basic calculation instrument. This methodology is part of continuous assessment.
ICT practicals	Development and implementation of analysis models using spreadsheets. Teamwork oriented sesions are to be scheduled

## **Assessment comments**

The assessment system metioned above is common for the first and the second opportunities.

There are specific conditions for the early call opportunity (art. 19 Normas de Avaliación, Revisión e Reclamacións das Cualificacións dos Estudos de Grao e Mestrado Universitario). In this case, evaluation is

carried out by a specific mixed exam, comprehensive of all contents and

skills of the subject. This exam accounts for 100% of final mark.

Part-time students will be assessed following the general system.
