	Methodologies		
Methodologies	Description		
Guest lecture /	Oral presentation in English and Castelán, complemented by the use of media and the introduction of some questions to the		
keynote speech	students, in order to impart knowledge and facilitate learning. The master session is also known as "conference",		
	"expository method" or "lecture". This last method is usually reserved for a special type of lesson taught		
	by a teacher on special occasions, with a content which is an original drawing from the almost exclusive use of the word as a means of transmitting information to the audience		
Seminar	Practical part of the contents exposed to the whole group in the master session, with key support in the use of Internet. It is a type class "seminar" for each class type "master session".		
Events academic / information	Mandatory participation in activities organized and / or supported by the Faculty, with the intervention of Spanish and foreign extraordinary professors and can even be selected to present a scientific paper.		
Objective test	<ul> <li>Written test used for the evaluation of learning, whose distinctive feature is the ability to determine if the answers are correct or not. It is a measuring instrument, rigorously developed, designed to measure knowledge, abilities, skills, performance, attitudes, intelligence, etc It applies both for diagnostic, formative and summative evaluation. The objective test may combine different types of questions: multiple choice, management, short answer, of discrimination, of complete and / or association. Also can build with a single type of any of these questions</li> </ul>		
Workbook	Tendentially, classical extracts directly related to the topics discussed in master sessions and seminaries

Assessment comments
It is essential to achieve 50% of the grade for each one of the
sections to evaluate to join the different methodologies in order to
obtain an average mark end. Failure to achieve the minimum required in
any of the methodologies, the student does not exceed the course. In
this case, the evaluation will consist suspended in the ordinary call
and may be reviewed at the July opportunity, where the evaluation
methodology will be a single objective test amounting to 100% of the
grade, both on theoretical and practical content of the program
Alternatively,
students who can not make a regular monitoring of the subject, may
choose to examine 100% of its rating by an objective test end. Failure
to achieve 50% of total grade on that test, the assessment will consist
suspended in the ordinary call and may be reviewed at the July
opportunity, where the evaluation methodology will be a single objective
test amounting to 100% of qualification, versando both on theoretical
and practical content of the program.
All students shall contain a
prominent notice on their file if they choose to CONTINUOUS EVALUATION
or FINAL EXAM. If not given, or not given the card within fifteen days
after the start of the academic year, is understood to opt for the FINAL
EXAM. The choice is final and irreversible for the call in progress.
