Assessment comments

According to the curriculum design of this MBA, the assessment of the student implies a close collaboration between the professors of each subject and the coordinator of the business plan.

The case study method requires the adequate application of problem solving methodologies, the oral defense of the results of the analysis, the ability to discuss and to defend the criteria that support the analysis and the search, filtering, selection and consultation of sources of documentation that support the analysis.

The assessment criteria (case study 70% and problem solving 30%) will be the same for the first and second opportunity.

Students who have part-time dedication and academic exemption from attendance will be evaluated based on the result obtained in the case study and problem solving, regardless of their attendance to classes.

Sources of information

Basic	Dado que o análise e a búsqueda de fontes documentais é unha das metodoloxías desenvolvidas durante o curso e sometidas a avaliación será o propio alumno (orientado por o docente) quen, en función dos problemas que teña que abordar buscará as referencias documentais máis apropiadas.No obstante, durante o curso, tanto os docentes como os directores de empresa suxerirán o material que consideren máis axeitado en cada momento.
