General description	The field of Strategic Management re	equires to un	derstand the factor	s responsible of the b	ousiness behaviour, in order to	
	identify the (internal and external) ch	anges that w	vill have organizatio	nal and economic eff	ects in the future. The approach	
	of this subject considers the dynamic	nature of m	arket preferences,	the systemic approac	ch of the organization as	
	goal-directed human systems, the co	gnitive appr	oach of the decision	n processes and the l	holistic view of competition in two	
	markets: client-based and resource-based.					

	Study programme competences / results
Code	Study programme competences / results
A1	Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and
	weaknesses
A2	Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned
A3	Evaluate and foreseeing, from relevant data, the development of a company.
A4	Elaborate advisory reports on specific situations of companies and markets
A5	Write projects about specific functional areas (e.g. management, marketing, financial) of the company
A6	Identify the relevant sources of economic information and to interpret the content.
A8	Derive, based on from basic information, relevant data unrecognizable by non-professionals.
A9	Use frequently the information and communication technology (ICT) throughout their professional activity.
A10	Read and communicate in a professional environment at a basic level in more than one language, particularly in English
A11	To analyze the problems of the firm based on management technical tools and professional criteria
B1	CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary
	education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their
	field of study
B2	CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demostrated
	by means of the elaboration and defense of arguments and solving problems within their area of work
B3	CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include
	reflection on relevant social, scientific or ethical
B4	CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled
B5	CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy
B6	CG1-Perform duties of management, advice and evaluation in business organizations
B7	CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships
	between them and with the overall objectives of the organization
B8	CG3- Know how to make decisions, and, in general, assume leadership roles.
B10	CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal
	opportunities, non-discrimination and universal accessibility for people with disabilities.

C1	Express correctly, both orally and in writing, in the official languages of the autonomous region
C4	To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose
	problems, formulate and implement knowledge-based solutions oriented to the common good
C5	Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs
C6	Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.

Methodologies	Description
Case study	In master classes, the teacher will address each of the issues raised by students during their development relating to the
Oral presentation	subject. If the issues raised require broader responses, the teacher will offer to the student a complementary explanation
Guest lecture /	during the tutorial sessions. Answers to previous questions can be posted on Moodle, in order that other students can take
keynote speech	advantage of it. During the sessions of case of study, students must intervene to ask, clarify or explain their different
Supervised projects	approaches. The teacher will provide support to the working groups in the classroom and also in the tutorial sessions.
	Students with part-time attendance recognized by the academic institution will mainly use the moodle platform and mail to
	manage the contents of the subject and to contact with the professor for on-line tutorial sessions.

Assessment comments

The previous criteria of assessment will be the same for the first and second opportunities.

Students with part-time attendance recognized by the academic institution will be assessed as follows: case study: 20%, supervised project: 30% and short answer questions: 50%.

In the December call the assessment criteria will be: short answer questions: 100%.

If any fraudulent behavior is detected in any of the methodologies, the student will fail the subject. According to the current regulations a student will follow the continuous assessment process if he/she joins a team work to manage the supervised project, participates in the work process, attend classes and resolve the case studies planned by the professor.

Students cannot use any mobile devices during the exams. If they do it, they will fail the subject. For all other matters not specifically detailed in this guide there is current regulations applicable.
