Methodologies	
Methodologies	Description
Seminar	Attendance to class is compulsory. Lectures explaining the concepts and the terminology will be delivered to the students. These lectures will be implemented with multimedia presentations, animations, graphs, video clips or any other element that may help understand the main concepts, processes and ideas.
Oral presentation	Students are required to give an in-class presentation based on their individual final projects.
Workshop	Small groups are required to work together, asking questions, giving their opinions, or working on their projects. During the course students will prepare and comment on topics, videos or other media in class or through/on the course virtual platform. This methodology aims at practising both oral and written skills, as well as enhancing both individual and collaborative work.

Assessment comments

Students' progress will be assessed during the course, including attendance and active participation in the classroom sessions, and also individual work outside the classroom. Active participation will be assessed taking into account the carrying out of all kinds of oral and written tasks related to the course, both in the classroom and outside (e.g. exercises, problems, commentaries, written tasks, oral presentations, exams).

Given that this degree programme is part distance learning, part actual attendance, students are required to attend the compulsory sessions, unless they have applied for exemption within the time period specified by the Academic Commission of the degree, and this exemption has been granted. This exemption will be valid provided students comply with the rules on attendance in force in the three universities participating in the programme, and provided they comply with the assessment systems which are specified in the teaching guides for each module. Students should be aware, however, that not attending certain classroom sessions may affect their final grades.

#### Students

who have been granted exemption, as specified in the university regulations, will be assessed according to the criteria applied to the July opportunity.

#### Students

who do not submit a supervised project, or who fail to submit at least 50% of the other tasks for assessment, will be graded as absent from assessment (NP: no presentado).

#### Students

who do not pass in the first opportunity will be able to re-sit in July, when they will be required to demonstrate that they have acquired the skills for each module via two types of assessment: a supervised project with the same percentage value and characteristics as in the first opportunity, plus the exercises agreed upon with the lecturer(s) as a substitute for the other activities of the module.
