| General description | O curso plantease como unha intr | roducción xeral a | os diversos temas | s que se desenrolarán | máis adiante en sucesivas |
| | asignaturas da area de urbanismo | o. Tratarase de in | ntroducir ó alumno | na disciplina urbanís | tica, familiarizándoo con |
| | coñecementos de carácter instrumental e básico que faciliten, en niveis superiores, o seu su enfrontamento co proxecto de | | | | |
| | escala territorial e urbana. A asignatura estructúrase en dúas partes: teoría e práctica, estreitamente relacionadas e que se | | | | |
| | desenrolan paralelamente ao longo do curso. A avaliación do alumno dependerá, ademáis da súa participación na materia | | | | |
| | específica, na que se estima unha asistencia mínima obligatoria dun 80%, da participación e entregas realizadas no | | | | |
| | conxunto do Taller 5, a onde se vincula parte da práctica da asignatura. | | | | |

| | Study programme competences / results |
|------|---|
| Code | Study programme competences / results |
| A34 | Ability to design, implement and develop sketches and drafts, concept designs, developed designs and technical designs (T) |
| A39 | Ability to remove architectural barriers (T) |
| A42 | Ability to catalogue the built and urban heritage and plan its protection (T) |
| A45 | Ability to design and execute urban layouts and urbanization, gardening and landscape design projects (T) |
| A46 | Ability to apply standards and urban regulations |
| A48 | Adequate knowledge of general theories of form, composition and architectural types |
| A49 | Adequate knowledge of the general history of architecture |
| A50 | Adequate knowledge of the methods of studying the processes of symbolization, practical functions and ergonomics |
| A51 | Adequate knowledge of the methods of studying the social requirements, living conditions, habitability and basic housing programmes |
| A52 | "Adequate knowledge of ecology, sustainability and the principles of conservation of energy and environmental resources. " |
| A53 | Adequate knowledge of the architectural, urban and landscape traditions of Western culture, as well as their technical, climatic, economic, |
| | social and ideological foundationsxicos. |
| A56 | Adequate knowledge of the foundations of vernacular architecture |
| A58 | Adequate knowledge of the methodological foundations of territorial, metropolitan and urban planning. |
| A59 | Knowledge of the mechanisms of development and management of urban planning at all scales |
| A63 | Development, presentation and public review before a university jury of an original academic work individually elaborated and linked to any |
| | of the subjects previously studied |
| B1 | Students have demonstrated knowledge and understanding in a field of study that is based on the general secondary education, and is |
| | usually at a level which, although it is supported by advanced textbooks, includes some aspects that imply knowledge of the forefront of |
| | their field of study |
| B2 | Students can apply their knowledge to their work or vocation in a professional way and have competences that can be displayed by means |
| | of elaborating and sustaining arguments and solving problems in their field of study |
| | |

| В3 | Students have the ability to gather and interpret relevant data (usually within their field of study) to inform judgements that include |
|-----|---|
| | reflection on relevant social, scientific or ethical issues |
| В6 | Knowing the history and theories of architecture and the arts, technologies and human sciences related to architecture |
| В8 | Knowing the urbanism and techniques applied in the planning process |
| B12 | Understanding the relationship between people and buildings and between these and their environment, and the need to relate buildings |
| | and the spaces between them according to the needs and human scale |
| C1 | Expressing themselves correctly, both orally and in writing, in the official languages of the autonomous region |
| C3 | Using basic tools of information technology and communications (ICT) necessary for the exercise of the profession and for lifelong |
| | learning |
| C4 | Exercising an open, educated, critical, committed, democratic and caring citizenship, being able to analyse facts, diagnose problems, |
| | formulate and implement solutions based on knowledge and solutions for the common good |
| C5 | Understanding the importance of entrepreneurship and knowing the means available to the enterpreneur |
| C6 | Critically evaluate the knowledge, technology and information available to solve the problems they must face |
| C7 | Assuming as professionals and citizens the importance of learning throughout life |
| C8 | Assessing the importance of research, innovation and technological development in the socio-economic advance of society and culture |
| | |

| Methodologies | | | | |
|-------------------------|---|--|--|--|
| Methodologies | Description | | | |
| Workshop | Work of analysis, spatial planning and urban design. It develops linked to Workshop 5, which defines the contents of the | | | |
| | practice, objectives, documentation and delivery. | | | |
| Field trip | It is considered essential knowledge about the area being analyzed, so the visit to the site chosen for the job is essential too. | | | |
| Directed discussion | The results of the workshop will be the subject of discussions directed along the course. | | | |
| Introductory activities | Presentation of the activities to be carried out in the course and home search from the description of the basic documentary | | | |
| | sources | | | |

| Objective test | Test used to assess knowledge, abilities, skills, performance, skills, attitudes, intelligence, etc., applicable both to evaluate |
|---------------------|---|
| | diagnostic, formative, or additive, and can contain both written multiple-choice questions written short, long response and |
| | graphic mode. |
| Supervised projects | Jobs in search of information, analysis or summary in parallel with the work of workshop. |
| Multiple-choice | Objective test consisting of direct questions with several response options that only one of them is valid. |
| questions | |
| Document analysis | Technical methodology in which relevant audiovisual and bibliographic documents are used for the subject of matter, forming |
| | part not only approximation works to solve solution but also the relevant content of the same. |
| Diagramming | It consists in the elaboration of synthesis of the main contents of the work, being an optimal resource that facilitates |
| | understanding of the reality and the explanation of the proposals. |
| Student portfolio | Overview graphic and written documents that explain specific parts of any specific work done as the models that are made in |
| | the course or the putting in order of the urban information. |
| ICT practicals | Control of the individual work of the workshop through ICT practices. |
| Workbook | Throughout the course are given a series of readings of support that are helpful to facilitate understanding and assimilation of |
| | knowledge and to establish guidelines and open up possibilities to guide the work in the workshop. |
| Guest lecture / | The various issues relevant to the workshop sessions will be subject to master. |
| keynote speech | |

| | C6 C7 C8 | | |
| Objective test | A34 A39 A45 A46 | Instrumental knowledge contained in the syllabus of expository teaching, theoretical | 50 |
| | A48 A49 A50 A51 | and practical of course will be assessed by an objective test which can contain both | |
| | A52 A53 A56 A58 | written multiple-choice questions written short, long response and graphic form. | |
| | A59 B2 B3 B6 B8 B12 | | |
| | C1 C5 C6 | | |

Assessment comments

It's a continuous assessment, controlled through class attendance completed with the completion of theoretical and practical tests that allow to check the student absorbed the conceptual content and procedure of the subject. Evaluation of students will depend, in addition to its participation in the specific field, in which it is estimated a compulsory minimum attendance of 80%, participation and supplies made in e set of Workshop 5, where it binds the main practical part of the course. Both the non-realization of the proposed tests and breach of assistance delivery will result in a failed as a qualification of the call. In any case, the final grade of the course will be valued with the average resulting from both written tests grades exams as practice theoretical proofs. The knowledge of the student must be always in any of them above 50%. Evaluation of the student in extraordinary calls will take place by means of a single examination, while those students that do not exceed the part corresponding to the theoretical and practical tests, must also prove the correction and completion of the same. Evaluation of the student in successive registrations held by the same procedure described above. Teaching mobility programmes students will adapt to teaching and special protected works, as well as testing and evaluation tests.
