General description	Se pretende proporcionar unos conocimientos básicos y generales sobre la disciplina con la finalidad de que constituyan no sólo un corpus de saberes si no también un enfoque que ayude de un modo específico a reflexionar sobre las diferencias y semejanzas entre los seres humanos desde la comprensión del concepto de cultura. La Antropología se va a concebir también como una ciencia crítica, de tal manera que nos permita aportar una visión que sea capaz de contribuir a la mejora de las sociedades, de las culturas y del ser humano.			

Study programme competences / results	
Code	Study programme competences / results
A1	Knowledge of the different goods and heritage resources and their juridical regime.
A2	Knowledge of the past from a diachronic point of view.
A3	Knowledge of the space and of the territory.
A4	Knowledge of the different goods and heritage resources and their juridical regime.
A5	Knowledge of cultural and environmental development strategies.
A6	Knowledge of the individual and social human behaviour
A7	Syncronic and diachronic knowledge of diverse current cultural and present realities.
A8	Basic knowledge of the contemporary socio-political reality.
A9	Knowledge of classical languages and cultures.
A10	Knowledge of modern languages.
A11	Knowledge of techniques and methods of work and analysis of the human and social sciences.
A12	Oral and written correct use of their own languages.
A13	Oral and written correct use of at least one foreign language.
A14	Design and production of cultural goods.
A15	Environmental and heritage impact assessment.
A16	Assessing the feasibility of projects.
A17	Innovation in the presentation and dissemination of culture.
A18	Identification and creative construction of cultural market needs.
A19	Knowledge of national and international reality in policy and services of information, and in cultural industries.
A20	Knowledge and application of information technologies used at the units of information services and in the process of information transfer.
A21	Skills to analyze, advice and train producers, users and customers of information services, as well as skills in negotiation and communication processes.
A22	Ability to use and adapt various techniques of oral and written communication with the information users.
A23	Knowledge of the nature of information and the documents aboutthe various modes of production and their management cycle , the legal and ethical issuesof their use and transference, and of the main sources of information on any media support, and over time.
A24	Knowledge, understanding and application of the theoretical and methodological principles, and of the techniques for the planning, organisation and assesment of the units and services information system.

A25	Knowledge, understanding and application of the theoretical and methodological principles, and of the techniques and normative for the creation and authentication, recollection, selection, organisation, representation, preservation, recovery, access, diffusion and exchange, and evaluation of the information and of the informative resources
A26	Skills in the achievement, treatment and interpretation of data on units and services of information; of the processes of production, transfer and use of the information and of scientific activity.
B1	Learn to learn.
B2	To solve problems effectively.
B3	Apply a critical, logical and creative thinking.
B4	Work independently with initiative.
B5	Work collaboratively.
B6	Behave with ethics and social responsibility as a citizen and as a professional.
B7	Communicate effectively in a work environment.
B8	Oral and written communication in your own language.
B9	Oral and written expression in a foreign language.
B10	Capacity for analysis and synthesis.
B11	Ability to manage the relevant information.
B12	Ability to integrate themselves into multidisciplinary teams.
B13	Recognition of the richness of diversity and multiculturalism.
B14	Ability to work with international teams.
B15	Know how to approach interpersonal conflicts.
B16	Ability to adapt to changes in the environment.
B17	Ability to undertake improvements and propose innovations.
B18	Management and leadership capacity.
B19	Motivation and commitment to quality in professional performances.
B20	Creativity and originality in thinking and practice.
B21	Social sensitivity, sense of justice and fairness and sensitivity to inequality.
B22	Sensitivity for the environment and its protection.
B23	Ability to use generic software.
B24	To develop oneself to put in practice an open, educated, critical, committed, democratic and united citizenship, capable of analyzing reality, diagnose problems, formulate and implement knowledge-based solutions, and oriented towards the common good.
B25	Critically evaluate the knowledge, technology and information available to solve the problems they must face to.
B26	Assess the importance of research, innovation and technological development in the economic and cultural progress of society
B27	Ability to organize and plan their own work.
B28	CB1-That the students have showed to possess and comprise knowledge in an area of study that begins from the base of general secondary education, and it is usually found at a level that, although it relies on advanced textbooks, includes also some aspects that involve proceeding knowledge of the avant-garde of the field of study.
B29	CB2-That the students know how to apply their knowledge to their work or vocation in a professional manner, and possess the competences that commonly are shown by means of the preparation and defence of arguments and the resolution of problems inside their area of study.
B30	CB3-That the students have the capacity to collect and interpret outstanding data (usually inside their area of study), in order to formulate judgements that include a reflection on notable topics of social, scientific or ethical nature.
B31	CB4-That the students can transmit information, ideas, problems and solutions both to skilled and non-skilled public.
B32	CB5-That the students have developed those skills of learning necessary to undertake further studies with a high degree of autonomy.
C1	Express themselves correctly, both orally and in writing, in the official languages of the autonomous region.
C2	Control the expression and understanding of a foreign language.
C3	Using basic tools of information technology and communication (ICT), necessary for the exercise of their profession and for learning throughout her life
C4	To develop oneself to exercise an open, educated, critical, committed, democratic and united citizenship, capable of analyzing reality, diagnosing, problems, formulating and implementing knowledge-based solutions, which are guided towards the common good.
C5	Understanding the importance of entrepreneurship and knowing the means available to entrepreneurs.

C6	Critically evaluate the knowledge, technology and information available to solve the problems they must face to.
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.
C9	Ability to organize and plan their own work.

Learning outcomes			
Learning outcomes	Study programme competences / results		
<p>Conocimiento de las producciones culturales de la Humanidad (Arte, Pensamiento, Literatura e Instituciones). Conocimiento del comportamiento humano individual y social. Conocimiento del pasado desde un punto de vista diacrónico. Conocimiento sincrónico y diacrónico de diversas realidades culturales actuales. Aprender a aprender. Aplicar un pensamiento crítico, lógico y creativo. Trabajar de forma colaborativa. Sensibilidad social, sentido de la justicia y de la equidad y sensibilidad hacia la desigualdad. Sensibilidad por el medio ambiente y su protección. Creatividad y originalidad en el pensamiento y la práctica. Desenvolverse para o exercicio dunha cidadanía aberta, culta, crítica, comprometida, democrática e solidaria, capaz de analizar a realidade, diagnosticar problemas, formular e implantar solucións baseadas no coñecemento e orientadas ao ben común. Entender a importancia da cultura emprendedora e coñecer os medios ao alcance das persoas emprendedoras. Valorar criticamente o coñecemento, a tecnoloxía e a información dispoñible para resolver os problemas cos que deben afrontarse. Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.</p>	A1	B1	C1

Methodologies	
Methodologies	Description
Seminar	Dinámicas de discusión y participación en torno a temas, ideas, conceptos con el objetivo de una mayor comprensión de los mismos.
Guest lecture / keynote speech	exposición oral con apoyo de lecturas, documentos gráficos, documentales etnográficos, etc.
Objective test	Presentación y defensa oral de un trabajo definido y ejecutado por cada alumn@. Se valorará la aplicación correcta e inclusión de conceptos aportados por la disciplina en la defensa del contenido expuesto. Se valorará una exposición apoyada en herramientas TICs con apoyo documental. Debe entregarse la Memoria ampliada de la exposición y defensa dell trabajo.

Personalized attention	
Methodologies	Description
Objective test Seminar Guest lecture / keynote speech	Alta disponibilidad presencial y/o virtual para la discusión o tratamiento de cualquier consulta o tema planteado. La atención personalizada se realizará durante el tiempo de mayor accesibilidad del alumno al profesor en el recinto universitario y fuera de él a través de herramientas de comunicación como el email; programa Skype, teléfono, etc. De este modo, cualquier almn@, puede realizar cualquier consulta y permite establecer un hilo abierto permanente con el profesor.
