| General description | Population ecology. Species interactions. Communities | | | |

Study programme competences / results

| Code | Study programme competences / results |
|------|--|
| A1 | Recoñecer distintos niveis de organización nos sistemas vivos. |
| A17 | Realizar bioensaios e diagnósticos biolóxicos. |
| A20 | Muestrear, caracterizar e manexar poboacións e comunidades. |
| A21 | Deseñar modelos de procesos biolóxicos. |
| A24 | Xestionar, conservar e restaurar poboacións e ecosistemas. |
| A26 | Deseñar experimentos, obter información e interpretar os resultados. |
| A30 | Manexar adecuadamente instrumentación científica. |
| B4 | Traballar de forma autónoma con iniciativa. |
| B6 | Organizar e planificar o traballo. |
| B7 | Comunicarse de maneira efectiva nunha contorna de traballo. |
| B8 | Sintetizar a información. |
| B12 | Adaptarse a novas situacións. |

Learning outcomes

| Learning outcomes | Study programme competences / results | | |
|--|---------------------------------------|-----|--|
| Describe ecological concepts at individual, population, community and ecosystem level. | A1 | | |
| | A24 | | |
| Analytical discussion of ecological concepts. | | B8 | |
| Managing scientific literature. | A30 | | |
| Using basic techniques in ecology. | A17 | B4 | |
| | A20 | B6 | |
| | A21 | B7 | |
| | A26 | B12 | |
| | A30 | | |

Contents

| Topic | Sub-topic |
|-------|-----------|
| | |

| | |
|---------------------------------|---|
| Section 1. Populations | Unit 1. Size, structure and life cycles. Unit 2. Population growth models. Unit 3. Growth in natural populations. Unit 4. Metapopulations. |
| Section 2. Species interactions | Unit 5. Competition. Unit 6. Predation. Unit 7. Mutualism. |
| Section 3. Communities | Unit 8. Community structure. Unit 9. Patterns in species richness. Unit 10. Ecological succession, trophic structure and stability. |

| Planning | | | | |
|--------------------------------|--|--------------------------------------|-------------------------------|-------------|
| Methodologies / tests | Competencies / Results | Teaching hours (in-person & virtual) | Student's personal work hours | Total hours |
| Guest lecture / keynote speech | A1 A17 A20 A21 A24 A26 A30 B4 B6 B7 B8 B12 | 24 | 62.4 | 86.4 |
| Laboratory practice | A1 A17 A20 A21 A24 A26 A30 B4 B6 B7 B8 B12 | 15 | 15 | 30 |
| Seminar | A1 A17 A20 A21 A24 A26 A30 B4 B6 B7 B8 B12 | 8 | 20.8 | 28.8 |
| Objective test | A1 A17 A20 A21 A24 A26 A30 B4 B6 B7 B8 B12 | 3 | 0 | 3 |
| Personalized attention | | 1.8 | 0 | 1.8 |

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| Methodologies | |
|--------------------------------|--|
| Methodologies | Description |
| Guest lecture / keynote speech | Oral presentations to transfer knowledge and ease learning. Most of the graphical support of presentations is available in the virtual campus (Moodle). |
| Laboratory practice | For the students to learn effectively through the completion of practical activities in the field and/or in the laboratory. |
| Seminar | Demonstration and study of numerical models for a better understanding and resolution of ecological problems. Most models will be worked with Faculty PCs if students have no portables. |
| Objective test | Written exam on all aspects of the matter: theory, practicals and seminars. |

| Personalized attention | |
|--------------------------------|--|
| Methodologies | Description |
| Laboratory practice Seminar | Elucidation of possible doubts emerging as the matter is developed. |
| Guest lecture / keynote speech | Orientation and tuition to make the most of practicals. |
| Objective test | Orientation and tuition to make the most of seminars. Preparation, explanation and revision of exams. |

Assessment

| Methodologies | Competencies / Results | Description | Qualification |
|----------------|--|--|---------------|
| Objective test | A1 A17 A20 A21 A24 A26 A30 B4 B6 B7 B8 B12 | Written exam on all aspects of the matter: theory, practicals and seminars (see Assessment comments). By means of this global exam all the degree's specific competencies included in this matter will be evaluated (A1, A17, A20, A21, A24, A26, A27, A29, A30, A31, A32). | 100 |
| Others | | | |

Assessment comments

Written exam on all aspects of the matter: theory, practicals and seminars (see Assessment comments).
By means of this global exam all the degree's specific competencies included in this matter will be evaluated.

Objective test. Written exam on all aspects of the matter: theory, practicals and seminars (see Assessment comments).

One and only exam (but 2 opportunities) on all and every part: theory, practicals (P) and seminars (S). Weight proportional to contribution to time planning: 60%, 20% y 20% (respectively). All 3 parts are to be passed simultaneously, but compensation possible if one part > 4/10.

Attendance not compulsory, but for P and S it'll be recorded. Students can voluntarily present at the exam a paper personal copybook on the work developed in all 8 S and/or all 3 P classes; main text must be manuscript (by hand) and the whole should be easily readable. Guides will be available in Moodle and the marks on these workbooks may help overcome insufficiencies in the corresponding exam. Copybooks can be drafted in pairs or groups, but the final result is not to be cloned: they must reflect individual work and interpretation. Both copybooks are needed to get the top mark (Honours).
