Assessment comments	
The criteria of evaluation that later are specified are valid for the first and second opportunity. Pass the matter will require that the student should have been valued for his participation in the "solution of problems", also for the "mixed test" and the "study of cases". The minimal qualification to pass is 5 (50%). Qualification of not presented corresponds to the student who had participated in activities of evaluation that have a weight lower than 20% on the final qualification, with independence of the obtained qualification. Convocatoria adelantada and students with recognition of part-time dedication (and exemption of assistance): mixed test with a weight of 100% on the qualification: it will consist of a mixed test in which there will be included theoretical and practical questions and of which the student has to prove have reached the competences and the results of learning of the matter.
