General description	The Faculty of Science has been	succesfully running	an internshi	p program since 2005, w	ith an average participation of		
	50-70 students per year. Every year, our students can conduct internships in private companies or institutions equivalent to						
	6 or 12 ECTS credits, in exchange for 1 or 2 optional courses.						
	In order to participate in the internships program, students must: i) Be enrolled in one of the degrees run by the Faculty of Science.						
	ii) Have passed courses comprising 120 ECTS credits, including all basic courses.						
	iii) Participate in the selection process that may be established. Students already having a contractual relationship with the						
	private company or institution offering the internship are not eligible, unless they are granted special permission according						
	to the University of A Coruña (UDC) regulations.						
	In order to be academically valid, internships must:						
	a) Be offered through or approved by the Faculty of Science. Positions offered by other institutions (Social Council UDC,						
	UDC Foundation, etc.) must abide by UDC regulations, specially those ensuring equal opportunity and no discrimination.						
	b) Be filled in a fair process based on merit.						
	c) Be conducted under the supervision of a qualified professional (BSc, MSc or PhD), preferably in a related field.						
	d) Obtain a positive report issued by the ?Comisión de Docencia e Validacións? about the conducted activity, based on the report submitted by the student and the assessment report by the academic and professional supervisors (Annexes III and IV).						
	The assessment process, prior to regulations.	the decision of the '	?Comisión d	le Docencia e Validación	s?, will follow all UDC

	Methodologies				
Methodologies	Description				
Supervised projects	The company or institution will appoint a supervisor (BSc, MSc or PhD) with the following functions:				
	1. Submit to the Faculty of Science a document including a brief description of the tasks to be conducted by the student. In				
	addition to this, the supervisor will list in the document the specific skills the student will need to complete the tasks during the				
	internship. Finally, the learning outcomes for the student should also be included in the document.				
	2. Guide the student during the internship.				
	3. Write a final report, addressed to the Dean of the Faculty of Science, assessing the quality of the student?s work.				
	The student will also have an academic supervisor at the Faculty of Science. He/She will evaluate the report submitted by the				
	student offering advice and suggesting improvements. A second version of the report will be submitted to the ?Negociado de				
	alumnos? (student?s office) together with a form requesting its assessment.				

Summary	The report submitted by the student will include the following parts, and in the following order:

Summary	B3 C1 C6 C7	In order to be evaluated and to attain academic recognition for the internship, the	50
		student must submit a report, addressed to the Dean of the Faculty of Science,	
		including a detailed summary of the different activities conducted. The report should	
		follow the guidelines including in section 5 of this teaching guide (Methodologies).	
		The academic supervisor will revise the report and will suggest changes and	
		corrections (in writting). The student will consider these corrections and will prepare a	
		final version of the report. This final version will be again submitted, this time to the	
		Negociado de alumnos (student's office) together with a form requesting its evaluation.	
		The student's report will be assessed by the Comisión de Docencia e Validacións of	
		the Faculty of Science, who will consider the evaluation by the professional supervisor	
		(appointed by the company/institution) and the recommendations of the academic	
		supervisor.

Other comments	

Internships should be undertaken in the summer between the third and the fourth years of the degree, once the semester is finished. Students who do this will have more time during the second semester of their third year, which is usually stressful.
