The continuous evaluation will represent 50% of the total grade. The remaining 50% will correspond to the grade of the test to be done on all the content of the subject in the period of official exams that follow the end of the classes of the semester.

The remaining 40% will correspond to the evaluation of a documented analysis work with doctrinal citations that will deal with an International Financial Information Standard.

On the July opportunity, the same criteria will apply. In this regard, the teacher may propose additional tasks that allow the student to improve the rating of their continuous assessment.

The tests will have the same format as for full-time students.
