Methodologies	
Methodologies	Description
Case study	Classes will be held in a classroom designated for that purpose, where the remaining topics and subtopics of the contents of the subject, paying particular attention to activities around the phonetic transcription in English.
Guest lecture / keynote speech	Weekly keynote sessions with the whole group. In these sessions the basics of a theoretical mode will be exhibited, although supported by practical examples on the computer platform, to move progressively to increase the component of practical work in mode "learning by doing", gradually reducing the explanatory theoretical component and incorporating self-learning modules from a balance of 1 / 2T + 1 / 2P to 1P.
Problem solving	They exercises will deal with the problems during laboratory practices.

ICT practicals	Weekly sessions with two intermediate groups Interactive Teaching practice. Classes will be held at the Language Laboratory and the Laboratory of Phonetics, which will practice those topics and subtopics of the contents of the subject in need of computer support.
Glossary	Glossary is a resource that explains and contextualizes terms related to the field in order to facilitate the understanding concepts.
Objective test	The objective test consists of theoretical questions about phonetics, a phonemic transcription of a written text and a transcription of an English recorded passage.

Personalized attention

Methodologies	Description
ICT practicals Case study	Students will be provided with a tutorial system both online and personal where you may consult, submit proposals to the teacher at all times. They will be especially tutored group work as well as the acquisition of procedural skills that the course requires for a good use of it. The student will be attended by teachers of the subject in the tutorial hours of academic year, through the virtual platform Moodle at specific times of the course and through email at all times. Unidade University Diversidade care (ADI) University Drive for Diversity (ADI) established in 2004 is responsible for all the special needs arising from disability due to physical, sensory, psychological or cultural reasons. ADI is directed therefore to the whole university community, especially students. For more information on available services and software in the ADI students enrolled at this university, please contact: http://www.udc.es/cufie/uadi/

ICT practicals	B1 B2 B3 B7	Class participation and completion and delivery of the practices carried out in the Laboratory. No practices will be collected from those students who do not attend the laboratory. Not counted deliver less than 2 labs	20
Case study	A6 A11 A15 B2 B6 C6	Realization and delivery of tasks whose realization has begun in class and must be delivered to the teacher for monitoring	20
Objective test	A1 A3 A6 A15 A18 A19 A20 B2 B4 C2	A written test in which the theoretical knowledge acquired by students (30%), and various exercises around the phonemic transcription (30%) will be evaluated. The student must obtain at least 5 marks out of the final result in this part in order to pass the subject. The objective test consists of theoretical questions about phonics, a phonemic transcription of a written text and the transcription of a listening.	60

Assessment comments

QUALIFICATION

For the student to qualify as APPROVED (and above) the following cases (1) shall be the average endnote exceeds 50% of the course (2) and at least (a) exceeds the theoretical and practical examination May 1st.

The student will be graded as SUSPENSO when (1) the final average grade is less than 50% of the course (2) and does not meet the above criteria.

The student will be graded as absent, when you have delivered = / - 50% of course exercises and / or has not been present at any of the written tests.

DATES AND TIMES OF FINAL EXAM

The dates and times of examinations in official announcements will be approved by the faculty and published for each academic year prior to the beginning of it.

LINGUISTIC ACCURACY

Both the theoretical and practical examination, such as group work and laboratory practices must meet the minimum requirements of linguistic correctness (spelling and grammar, punctuation, syntax concordance, lexical precision, or formal register). The level in English language expected of students is equivalent to an acceptable level for the third year. Deficiencies in this area will be penalized in qualifying.

CALL FOR JULY

The labs will be delivered the day of the written exam. If the student has given these two practices during the academic year you will not have to repeat the call for July. The same will happen with individual work. If the student has given this group work throughout the academic year you will not have to repeat the call for July.

Students who have been granted exemption, as specified in the university regulations, will be assessed according to the criteria applied to the July opportunity.

Students sitting the December exam (final exam brought forward) will be assessed according to the criteria specified for the July opportunity.

Essays and written work may be tested through Turnitin in order to detect wrong citations, plagiarism or any other type of fraud. Should this occur, the rules for plagiarism will be applied. (Normas de avaliación, revisión e reclamación das cualificacións dos estudos de grao emestrado universitario).

Turnitin recognises papers previously turned in by other people (or the student him/herself) at this university or other universities, as well as other material found on Internet.
