

Teaching Guide				
Identifying Data				2018/19
Subject (*)	Neurogenetics. dependence and disability		Code	652438011
Study programme	Mestrado Universitario en Psicoloxía Aplicada			
Descriptors				
Cycle	Period	Year	Type	Credits
Official Master's Degree	1st four-month period	First	Obligatory	3
Language	SpanishGalicianEnglish			
Teaching method	Face-to-face			
Prerequisites				
Department	Psicoloxía			
Coordinador	Pasaro Mendez, Eduardo Jose	E-mail	eduardo.pasaro@udc.es	
Lecturers	Pasaro Mendez, Eduardo Jose	E-mail	eduardo.pasaro@udc.es	
Web	www.dicomosa.org			
General description				

Study programme competences / results	
Code	Study programme competences / results
A1	To recognize and respect human diversity and to understand that psychological explanations may vary across populations and contexts.
A2	To identify the personal, psycho-social and / or educative factors that may put human health at risk.
A3	Being able to elaborate a scientific report which involves defining a research problem, the hypotheses and variables, and defining the design, the sample and its method of selection, the tools for collecting data and their subsequent analysis and discussion.
A12	To acquire a basic theoretical knowledge about the state of the art in the different areas involved in applied psychology.
A13	Knowing and being able to use the different models, theories, methods and assessment and intervention techniques that are specific of the different areas of research in Applied Psychology, and developing a critical attitude typical of the scientific spirit.

Learning outcomes		
Learning outcomes	Study programme competences / results	
Coñocer el sistema de la clasificación de la discapacidade	AR1	
	AR2	
Knowing the causes of type neuroxenético enrolled dependent or discapacidade	AR1	
	AR2	
	AR3	
	AR12	
	AR13	

Contents	
Topic	Sub-topic
1. Neurogenetics. overall rank	
2. The trinucleotide expansion.	
3. The deleccións and uniparental disomy. Genomic imprinting.	
4. Point mutations. Environmental considerations	
5. Genetically heterogeneous disease.	
6. Problems neurogenetics	
7. Disability and Dependency. Prevention Unit	

Planning

Methodologies / tests	Competencies / Results	Teaching hours (in-person & virtual)	Student?s personal work hours	Total hours
Guest lecture / keynote speech	A1 A2 A8 A12 A13	10	20	30
Oral presentation	A12	10	10	20
Problem solving	A3 B13 C3	4	6	10
Objective test	A1 A2 A8 A12 A13 B13	5	0	5
Personalized attention		10	0	10

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

Methodologies	Description
Guest lecture / keynote speech	Master class
Oral presentation	Defense of a thesis
Problem solving	Troubleshooting neurogenetics
Objective test	Examined in a questionnaire

Personalized attention

Methodologies	Description
Objective test Problem solving	Resolution of issues

Assessment

Methodologies	Competencies / Results	Description	Qualification
Objective test	A1 A2 A8 A12 A13 B13	Solve a questionnaire. To pass the course must be approved test or objective test.	40
Oral presentation	A12	Defending a thesis	30
Problem solving	A3 B13 C3	Troubleshooting neurogenetics	30
