Directed discussion	A5 B1	<p>To realize this task owes to take into account the following:</p> <p>it-will form small group no more of 5 people. The subjects of the contained of the subject that works with this methodology are the subject 2 and the subject 5 of the contained of the subject;</p> <p>b-it will work with materials that will present the professor through moodle. This material will be present at least with the 15 days of advance to interactive kind in the that works dictate methodology (also with 15 says of advance the professor/will indicate it in moodle the date in that will carry out dictate methodology so that the students schedule it). The evaluation of said requirements will be by three roads: one and when the professor/it to the each practises, realized in the interactive kind correspondent, assigns a point (in addition to the points that corresponds him when in an interactive kind in addition to are learning applied the methodology of analysis of documentary source for example); another road and the possibility to present join it eliminatory proof of subject (this proof remains conditioned the one who the professor/explain it all the practical concepts of all the contents of the subject, in the kinds expositivas, the exception of the subject 6 that would remain evaluated in the methodology obradoiro. Besides, the this proof only can present the students that has achieved a total of 6 points of the interactive kinds (less them of the subject 6) and have the points of the methodology of analysis of sources and of the methodology of discussion directed) and the last road and the proof termed theory texts. Assessment comments

In the evaluation of the subject (exposed in the apartado of the teaching guide, termed "Step 7: Evaluation") take before at all the following:

It)ESTUDIANTES THAT ASSIST ALWAYS The KIND (or students with metes out academic) consider that assist a 80%, this amounts to not having more of 3 fouls without justifying. It justifies the medical fouls (with xustificante correctly covered by a medical colexiado) and the fouls by a work (with xustificante correctly covered in the work where justify that in hours of kind is to work). Never will be able to realize the activities out of classroom (the exception of the students with metes out academic). Stop this the professor in kinds will request to the students that sign a leaf so much to the entrance of kinds how to the exit or that indicate the following data: name, surnames, identity card and signature in the practise of the interactive kinds. Wool evaluation gave students takes into account the following: 1-The "participation in kind", in the measure that the active intervention in kind allow to the professor did a better idea of the knowledges, the doubts and restlessnesses of the students. The information purchased, by part of the professor, with this procedure integrates with the obtained pole rest of procedures used, and with this intends to achieve an assessment more individualizada and complete; 2-through the following methodologies: "discussion directed" (8 on 100points), "obradoiro" (15 on 100points), "collaborating learning" (20 on 100points) and "analysis of documentary sources" (3 on 100 points) the student will reach a punctuation of 46 on 100. b-To catch up with maximum punctuation of each methodology no will take into account only delivers the material or no. Take several factors how: the capacity of individual work, capacity of work in team, basic general knowledges, capacity of syntheses and analysis, capacity to apply the knowledges of the sessions maxistrais to the practical, capacity to generate new ideas (innovation and creativity), critical capacity and autocritica, takes of decisions, oral communication and writing and skills of investigation. ALL THIS OBSERVED The PROFESSOR ALONG The INTERACTIVE KINDS (there is not that forget that many of these methodologies elaborated and developed in the devanditas kinds). By such reason in these kinds the professor will take the observations pertinentes 3-The examination of the announcements of June or July. The punctuation that can reach is of 54 points: it-theoretical Part divided in turn in two parts: a first, termed "pure Theory" approves when reaches a punctuation of 10 on 18 points that is the maximum punctuation that reaches here. The second part, termed "practical Theory" approves when reaches a punctuation of 10 on 18 points that is the maximum punctuation that reaches here IMPORTANTE THIS THEORETICAL PART CONSIDERS SURPASSED WHEN SURPASS The TWO PARTS WITH A TEN IN EACH OF THEM. IF it SUSPENDS ONE OF THESE PARTS SUSPENDS The THEORETICAL PART. b-Statistical part. This part approves with a 10, therefore, this part marks on 18 points.

STOP The STUDENTS THAT ASSIST The KIND (or with metes out academic)And HAVE CAUGHT UP WITH FINALS OF The MONTH OF May A PUNCTUATION OF The INTERACTIVE KINDS OF 46 POINTS. They CAN PRESENTED the eliminatory proofs (OF The TEORIIIT OF TEXTS And STATISTICAL PART (important detail to present the this last eliminatory proof account the points before the eliminatory proof of theory of texts how practise them of the interactive kinds correspondent to the subject 6)). Both test WILL REALIZE WHEN FULFIL (ALL) los FOLLOWING SITUATIONS: IT-The subject that would go in in the theoretical part and that corresponds to the that imparts in the kinds expositivas finish to explain in kind to first of April. b- The subject that would go in in the part of texts and that corresponds to the that works in the interactive kinds finish to explain in kind to first of April. c- Wool subject that would go in in the part practises and that explains in kind in the last week of April and the weeks that correspond of May (second academic calendar) finish off the last day of kinds of this study academic. The professor to finals of April will comment in kinds that students have reached the 46 points and fulfils all the previous conditions (through moodle or if the student asks it in titorías).

b) STUDENTS THAT DO not ASSIST ALWAYS The KIND consider that they do not assist when are missing more of a 80%, is to say, has more of three fouls without justifying. It justifies the medical fouls (with xustificante correctly covered by a medical colexiado) and the fouls by a work (with xustificante correctly covered in the work where justify that in hours of kind is to work). These students will present the proofs of the announcements of June or July. The PUNCTUATION ACHIEVED in this EXAMINATIONN BY ESTOS STUDENTS WILL MARK ON 100 POINTS. This wants to say, los students owe to catch up with following punctuation: it)theoretical Part, includes wool part termed "pure Theory" y wool part termed "Theory Texts" wool maximum punctuation are of 10 in each join of wools parts. Both split will approve with a 5. Yes any of wools parts in the approves with a five, considers that the student suspends all wool theoretical part. b)Statistical part wool maximum punctuation are of a 10.

Yes it suspends any of the two parts, previously indicated, the student will suspend all the examination (in the save parts ni notes)
