Methodologies	
Methodologies	Description

Guest lecture / keynote speech	The main aspects of the subject are explained by the teacher. The teacher might use audiovisual and means. In these sessions, student's active participation will be necessary, in order to transmit the knowledge base that the student needs to start his/her work and his/her learning.
Workshop	Different activities that require the active participation of students will be carried out. The students' analysis and reasoning capacity will be valued, deepening in the contents characteristic of the subject. As for the student's specific work, questions of short answer will be posed to value both the learning grade and the synthesis capacity; furthermore, there will be questions of wide answer related with aspects of the subject usually with reference to a text, a graph, a piece of news, etc. and where appropriate, there could also be multiple-choice questions.
Seminar	Each group will be divided into two sub-groups of students (15 students each one). These sessions may be used to solve doubts and to discuss about the different parts of the subject. This technique allow an active participation of the students in the development of the subject contents.
Mixed objective/subjective test	At the end of the course there will be a written test that will combine short answer or multiple answer questions with some broad questions. This exam model is intended to assess the knowledge acquired by the student throughout the course, as well as the reasoning capacity, creativity and critical spirit of the student.

Personalized attention	
Methodologies	Description
Seminar Workshop	To optimize the use of this methodology the individual learning needs of each student will be taken into account.

Assessment			
Methodologies	Competencies	Description	Qualification
Workshop	A6 A8 B3 B4 B9 C1	Activities carried out throughout the course. Within this section, participation in classes and practical activities developed and presented by the student during the course are considered.	60
Mixed objective/subjective test	A7 A8 A11 B4 C1 C6	Assessment in a final exam. It consists of taking a written exam where all the content developed during the course is evaluated.	40

Assessment comments

The qualification as ?Non-presented? corresponds to the student when he only participates in evaluation activities that have a weight lower than 20% in the final qualification, regardless of the grade reached.

Final qualification: To pass the subject, it will be necessary to have done at least the 20% of the tests of continuous evaluation ("workshop").

The evaluation of the second opportunity (July) will be carried out with the same criteria that the evaluation of the first opportunity.

Those students who have opted to the evaluation of the early opportunity will be treated with the same criteria applied for the July opportunity, i. e., 40% final exam and 60% continuous evaluation.

Students with recognition of part-time dedication and academic assistance waiver exemption. Except for the dates approved by the Faculty Board for the mixed tests, for the remaining tests will be agreed at the beginning of the course a specific timetable compatible with their dedication.

Conditions for doing the final exam and the evaluation activities: The professors in charge of each group will communicate the students the material required for the realization of both the different activities of continuous evaluation and the final exam.
