Study programme	Grao en Estudos de Arquitectura					
Descriptors						
Cycle	Period	Year	Type	Credits		
Graduate	1st four-month period	First	Obligatory	6		
Language	SpanishGalicianEnglish					
Teaching method	Face-to-face					
Prerequisites						
Department	Proxectos Arquitectónicos, Urbanismo e Composición					
Coordinador	Alonso Pereira, Jose Ramón	E-mail	jose.ramon.alonso.pereira@udc.es			
Lecturers	Abelleira Doldán, Miguel A. Alonso Pereira, Jose Ramón Blanco Lorenzo, Enrique Manuel Caridad Graña, Juan Antonio García Requejo, Zaida Río Vázquez, Antonio Santiago	E-mail	miguel.abelleira@udc.es jose.ramon.alonso.pereira@udc.es enrique.blanco@udc.es juan.caridad@udc.es zaida.garcia@udc.es antonio.rio.vazquez@udc.es			
Web	http://iala.udc.es/					
General description	Initial course at the School of Architecture, first term of studies, which wants to begin training future architects attending to the triple support: reflective, projectual and constructive of architecture. Inside of it, Introduction to Architecture is a compulsory subject within the projectual block responsible for awakening or increase the interest in Architecture and its own being, approaching the concept from Theory and History and working on analytical skills, critical sense and logical development of the student in this amazing field, from the city to the basic design as own territory of Architecture.					

Study programme competences	
Code	Study programme competences
A50	Adequate knowledge of the methods of studying the processes of symbolization, practical functions and ergonomics
A54	Adequate knowledge of aesthetics and theory and history of fine arts and applied arts
A63	Development, presentation and public review before a university jury of an original academic work individually elaborated and linked to any of the subjects previously studied
B1	Students have demonstrated knowledge and understanding in a field of study that is based on the general secondary education, and is usually at a level which, although it is supported by advanced textbooks, includes some aspects that imply knowledge of the forefront of their field of study
B2	Students can apply their knowledge to their work or vocation in a professional way and have competences that can be displayed by means of elaborating and sustaining arguments and solving problems in their field of study
B3	Students have the ability to gather and interpret relevant data (usually within their field of study) to inform judgements that include reflection on relevant social, scientific or ethical issues
B6	Knowing the history and theories of architecture and the arts, technologies and human sciences related to architecture
B12	Understanding the relationship between people and buildings and between these and their environment, and the need to relate buildings and the spaces between them according to the needs and human scale
C1	Adequate oral and written expression in the official languages.
C4	Exercising an open, educated, critical, committed, democratic and caring citizenship, being able to analyse facts, diagnose problems, formulate and implement solutions based on knowledge and solutions for the common good
C6	Critically evaluate the knowledge, technology and information available to solve the problems they must face
C7	Assuming as professionals and citizens the importance of learning throughout life
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.

Learning outcomes

Learning outcomes	Study programme competences		
Introducir al alumnado en la arquitectura despertando o acrecentando su interés por ella y por su razón de ser.	A50 A54	B1 B2 B3 B6 B12	C1 C4 C6 C7 C8
Aproximarse a la arquitectura desde la teoría, el pensamiento y el magisterio.	A50 A54	B1 B2 B3 B6 B12	C1 C4 C6 C7 C8
Introducción a la historia de la arquitectura y al proceso proyectivo de sus edificios emblemáticos	A50 A54	B1 B2 B3 B6 B12	C1 C4 C6 C7 C8
Conocer e introducirse en el territorio de la arquitectura como un amplio campo que va de la ciudad al diseño elemental.	A50 A54	B1 B2 B3 B6 B12	C1 C4 C6 C7 C8
Fomentar la capacidad analítica, el sentido crítico y el desarrollo lógico del alumno en el campo de la arquitectura. Saber ver la arquitectura. Saber pensar la arquitectura.	A50 A54 A63	B1 B2 B3 B6 B12	C1 C4 C6 C7 C8

Contents	
Topic	Sub-topic
I. THE IDEA OF ARCHITECTURE	01. PRESENTATION. APPROACH TO THE IDEA OF ARCHITECTURE (I) 02. DEFINITIONS OF ARCHITECTURE 03. KNOWLEDGE OF ARCHITECTURE 04. TERRITORY AND SCALES OF ARCHITECTURE
II. ARCHITECTURE AND HISTORY	05. ORIGINS AND LIMITS OF ARCHITECTURE 06. THE ARCHITECTURE OF CLASSICAL PERIOD 07. THE ARCHITECTURE OF MIDDLE AGE 08. THE ARCHITECTURE OF HUMANISM 09. THE ARCHITECTURE OF THE INDUSTRIAL REVOLUTION 10. THE ARCHITECTURE OF THE MODERN MOVEMENT (I) 11. THE ARCHITECTURE OF THE MODERN MOVEMENT (II)
III. THE ARCHITECTURAL PROJECT	12. ARCHITECTURE AND PROJECT 13. ARCHITECTURE AND MEANING 14. ARCHITECTURE AND SHAPE 15. ARCHITECTURE AND CONSTRUCTION
IV. MASTERS AND ARCHITECTURE	16. MASTERS OF ARCHITECTURE
V. ARCHITECTURAL ANALYSIS	17. READING AN ARCHITECTURAL WORK (I) 18. READING AN ARCHITECTURAL WORK (II)

Methodologies	
Methodologies	Description
Introductory activities	Encuadramento da asignatura no Plano de Estudos. Plantexamento do curso e obxetivos pretendidos.
Guest lecture / keynote speech	Sesións maxistrais. Clases teóricas e exposicións orais complementadas có uso de medios audiovisuais, coa finalidade de transmitir ós estudiantes as bases fundamentais dos coñecementos e facilitar a súa aprendizaxe, facendo fincapé no feito de ser a única materia dentro do bloque proxectual arquitectónico, convertíndose así no primeiro contacto que ten o alumnado co carácter teórico, proxectivo, constructivo e territorial da Arquitectura.
Directed discussion	Discusións dirixidas. Exposicións orais, con uso de medios audiovisuais, complementadas por debates activos con participación dos estudiantes, para potenciar a transmisión dos coñecementos expostos polo profesorado nas sesións maxistrais e facilitar a aprendizaxe do alumnado. Nelas os estudiantes deberán interactuar cós docentes, non só plantexando dúbidas ou cuestións senón debatindo activamente. Fomentarase a adquisición de coñecemento de modo autónomo a través da utilización de novas tecnoloxías para a realización de buscas dirixidas.
Field trip	Saídas de campo mas que se realizarán visitas guiadas polo profesorado a obras de arquitectura e a cidades de Galicia vinculadas ó temario.
Supervised projects	Como complemento das discusións dirixidas e có obxectivo de promover a aprendizaxe autónoma e grupal dos estudiantes, desenvolveranse continuadamente traballos prácticos de tipo analítico e/ou gráfico en diversos formatos baixo a tutela do profesorado, tanto en grupos reducidos como en titorías individualizadas que atendan ás consultas puntuais de forma personal. Todo baixo o soporte dun Entorno Virtual Docente [ENVIDO] que facilitará o contacto e o seguemetno do estudiante.
ICT practicals	Tanto as propostas dos traballos tutelados como a súa elaboración e contestación faranse a través das TIC.
Objective test	Cunha duración máxima de dúas horas, proporánse cuestións sobre o temario para ser respondidas en papel tanto de forma escrita como gráfica.

Personalized attention	
Methodologies	Description

Supervised projects	As a complement of guided discussions and to promote the Group and autonomous learning for students, practical work of analytical and/or graphic in different formats under the supervision of teachers will be continuously develop in small groups and/or individually. All of this under the support of the ENVIDO [Entorno Virtual Docente, virtual docent context] that will facilitate the contact and follow-up of students.
---------------------	---

Assessment			
Methodologies	Competencies	Description	Qualification
Supervised projects	A50 A54 A63 B1 B2 B3 B6 B12 C1 C4 C6 C7 C8	Realización satisfactoria correspondendo a unha axeitada progresión ó longo do curso tanto dos traballos individuais coma dos grupais. Valoración parte individual: 20% Valoración parte grupal: 20%	40
Objective test	A50 A54 A63 B1 B2 B3 B6 B12 C1 C4 C6 C7 C8	Constará de varias cuestións teóricas e prácticas relativas ós contidos da materia. Serán obligatorias e plantexadas de modo progresivo buscando unha axeitada personalización da calificación final.	60

Assessment comments

The evaluation of the course is configured as a weighted sum of tutoring works and exams. Each of the three parts form the qualification (individual work, collective work and exam) are rated from 0 to 10 points, being required to achieve a minimum score of 3 points in each one of them to pass.

Attendance and participation at face-to-face classes are required to be evaluated. Non-Presential work is valued through the works according to the maximum and minimum percentages described above.

Supervised projects are individual or collective practical works developing specific and basic ideas of the contents. Graphic expression and analytical abilities will be specially considered for grading.

The objective test involves specific questions and specific analysis of texts, works or architectural fragments that enable to assess the understanding of the particular aspects of the contents and make it possible to verify their assimilation and the proper customization of rating. As a preparatory process, during the period will have some trials to understand the objective test's questions.

Students to be graded at the first opportunity (January) must meet all of the following requirements:

1. Attend 80% of the classes.
2. 80% of works in due dates
3. Collective work in due date
4. Answer all the questions in the objective test

In case of failure to comply with any of the three first points the student will get a "NP" (no presentado) in January and July opportunities.

If the student do not complete the first objective test (January) and all the requirements are passed he/she will get a "NP" (January)

The second opportunity (July) will only consists in an objective test. The same conditions are required as in the first opportunity, so students must:

Meet all the previous 4 requirements and obtained a grade under 5 in the first objective test. 2. Or they meet the first 3 requirements and did not attend the first objective test.

Late registration students:

1. Will have to attend al least 90% of face to face classes
2. Will have to complete all the individual and collective works in due date -after registration-
3. Works done before registration will also have to be done according to the responsible professor.

The other rules without conflicting the previous ones will affect all late registration students.

Incoming and outgoing mobility students will be adapted to the same rules as regular students.

Previous year students who have accomplished the attendance conditions do not have to repeat it

Previous year/s students who have passed the individual works do not have to repeat them

Previous year/s students who have passed the group work do not have to repeat it.
