

## Teaching Guide

Identifying Data				
			2019/20	
Subject (*)	Análise de Estructuras e Materiais Avanzados	Code	632508002	
Study programme	Mestrado Universitario en Investigación en Enxeñaría Civil (2013)			
Descriptors				
Cycle	Period	Year	Type	Credits
Official Master's Degree	Yearly	First	Optional	6
Language	SpanishGalicianEnglish			
Teaching method	Face-to-face			
Prerequisites				
Department	Enxeñaría CivilEnxeñaría Naval e Industrial			
Coordinador		E-mail		
Lecturers		E-mail		
Web	campusvirtual.udc.es/moodle/			
General description				

## Study programme competences

Code	Study programme competences

## Learning outcomes

Learning outcomes	Study programme competences		

## Contents

Topic	Sub-topic
Análisis de Fatiga	Resistencia y Límite de Fatiga

## Planning

Methodologies / tests	Competencies	Ordinary class hours	Student?s personal work hours	Total hours
Guest lecture / keynote speech		20	20	40
Problem solving		20	20	40
ICT practicals		30	20	50
Laboratory practice		2	4	6
Workbook		0	12	12
Personalized attention		2	0	2

(\*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

## Methodologies

Methodologies	Description

Guest lecture / keynote speech	
Problem solving	
ICT practicals	
Laboratory practice	Prácticas de ensayos de fatiga en el laboratorio de Ciencia Materiales
Workbook	

**Personalized attention**

Methodologies	Description
ICT practicals	Se le ayudará al alumno en las dudas que surgan durante la realización de las prácticas
Laboratory practice	

**Assessment**

Methodologies	Competencies	Description	Qualification
Problem solving			25
Guest lecture / keynote speech			25
ICT practicals			25
Laboratory practice			25

**Assessment comments**
