Assessment

Methodologies	Competencies / Results	Description	Qualification
<p>Mixed objective/subjective test</p>	<p>A1 A3 A5 A10 B1 B5</p>	<p>1. It treats of an only proof for each one of the opportunities of evaluation of the announcement.</p> <p>2. It consists in an examination following the exposed criteria in methodologies.</p>	<p>50</p>

Problem solving	A1 A2 A3 A5 A10 A13 A23 A24 B2 B3 B4 B7 B11 B12 B13 C1 C2 C3	<p>1. Preparation of one or more practical cases posed by the professor, in which they will develop any or some of the relative appearances to the content of the matter.</p> <p>2. The works will develop in groups of 3 to 5 students. Exceptionally and previous approval by part of the teacher of the matter or of the Tutor of the group, will allow another number of students by group.</p> <p>3. It forms essential part of the evaluation the discussion of the development of the same with the Professor of the matter or Tutor of the group of development that assign to the same. Thus, the presence in the meetings of follow-up of the work is essential to be evaluated. In no case it will evaluate to the student out of this context, without prejudice to the said in the points 4 and 5. Such meetings will take place so much in the "Session magistral" as in the "Seminar" and the own methodology of "Solution of problems", of way such that in the three methodologies will compute the discussions inside this 50% of evaluation.</p> <p>4. For the evaluation according to this methodology will take into account: to) the work a) make in group; b) the discussion to that does reference the section 3 previous; c) the assistance to class and the effective and active participation in the same; d) the proofs, in his case, in reference to the point 5.</p> <p>5. They form part of this methodology the proofs of continuous evaluation that, to criterion of the responsible Professor to give the matter, @realizar in the eagerness to see and evaluate the advances of the student. Such proofs can revestir the form of oral examination or writing, , with short questions, questions to develop, questions on practical suppositions, ask type test (true/false), questions of multiple answer or a combination of the types mentioned.</p> <p>6. The works will go presenting, arguing and evaluating according to the calendar that to such end will publish in the web (Moodle).</p> <p>7. Any doubt about this section evaluativo has to solve sustentándose the solution in the idea of "continuous evaluation"</p>	50

Assessment comments

The criteria of evaluation are the same for each one of the opportunities of evaluation. It wants to this say that: 1) in both proofs of evaluation will take into account the qualifications obtained in the "Solution of problems"; 2) the corresponding examination to the mixed proof, in both opportunities of evaluation, describes on 5 points (50% of the final evaluation).

In the announcement advanced, and only in this case, will @realizar a mixed proof directed to evaluate all the competitions and own contents of the matter.

The criteria of punctuation of each one of the proofs will give to know in the moment of the proof and will supply together with the billed of this.

The test NOT done mark like zero. The qualification of "No Presented" will award to the student that have participated in less than 20% of the races for the final qualification. The made in fraud suppose the qualification of zero points in the final evaluation.

The only utensils which is allowed the access to the enclosure of the proof are the basic to answer to the examination: pencil, pen or feather, rubber to erase and electronic calculator no programmable.

It is on purpose forbidden the access to the enclosure of the examination with: to) mobile telephones and any one other able devices of communication to distance and/or of storage of information; b) aim, annotations, books or similar material that have not been on purpose authorised in the announcement of the examination or in the web page (Moodle) of the subject. The no observance of this norm supposes the one who consider as @realizar the proof in fraud and this with independence that the one who have in the enclosure of the proof such devices or distinguished material have used them or no in the course of the same.

The student has to accredit his personality of agreement to the valid rule. For any another question no on purpose detailed in this guide will be to the had in the applicable valid rule to each case that pose.

Students with recognition of dedication part time and of dispense academic of assistance: Exception done of the dates approved by the Board of Faculty in what it competes to the objective proof, for the remaining proofs will agree to the start of the course a specific calendar of compatible dates with his dedication, reason whereby said students will have to put in contact with the professor in the first ten days of the cuatrimestre in that it gives the matter, with the purpose to fix said calendar. The proofs will have the same format that for the students with dedication to complete time.
