<b>General description</b>	A macroeconomía e unha materia fundamental nas titulacións do Grado en Economía. Por tratarse dunha materia que se imparte no primeiro curso, o nivel será introdutorio, se bien han de quedar ben fundamentados os conceptos e as interrelacións macroeconómicas básicas.				

Contingency plan

1. Modifications to the contents

No changes will be made

2. Methodologies

\* Teaching methodologies that are maintained

- Guest lecture / keynote speech (it will be held virtually, preferably through Teams): the lectures are replaced by videoconferences, recordings on Teams, YouTube or similar.

- Mixed test (it will be done virtually, preferably through Moodle): the objective test will be maintained, adapting it to the online assessment.

\* Teaching methodologies that are modified

No changes will be made

3. Mechanisms for personalized attention to students

The personalized attention to the student will be carried out by any means that allows to connect with the teacher, either through Moodle, Teams or email, respecting, as far as possible, the personalized attention (tutoring) schedules. In any case, the attention to the student will be flexibly adapted to their needs at times compatible with the availability of the teacher.

- Email: Daily. Used to make inquiries, request virtual meetings to answer questions and monitor midterm activities.

- Moodle: Daily. According to the needs of the students. They have ?forums? (the inclusion of thematic forums associated with each module of the subject will be considered), to formulate the necessary queries.

- Teams: weekly sessions in large groups for the advancement of the theoretical contents and of the midterm activities in the time slot assigned to the subject in the faculty classroom calendar. In their case, weekly sessions (as students demand) in a small group (up to 6 people), for follow-up and support in carrying out midterm activities. This dynamic allows a standardized monitoring adjusted to the learning needs of the students to develop the work of the subject.

4. Modifications in the evaluation

No changes will be made

\* Evaluation observations:

The same ones that appear in the teaching guide are maintained.

REQUIREMENTS TO PASS THE SUBJECT:

- a) Attend and participate regularly in midterm activities.
  - b) Obtain a minimum total score of 50% of the total activities under evaluation.
5. Modifications to the bibliography or webgraphy

No changes will be made. Students already have all the materials digitally in Moodle.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The classroom teacher explains each of the themes of the program content. Use the waxed and technologies available. Students solve any doubts that it faces. At the end of each master class it opens a time of clarification, comments, etc.
Problem solving	It corresponds with the midterms (continuous evaluation of the student), which may consist of multiple choice tests, problem solving, short questions, etc. When the midterms (continuous evaluation) are based on multiple choice tests, the incorrect questions will have penalization.
Mixed objective/subjective test	There will be only one exam at the "second opportunity" (July call) where the weight of this exam will be 100% of the final grade for the subject. This exam may consist of a multiple choice test (with only one correct answer per question). The exam may also include short questions to explain contents of the subject and / or problems solving. For the case of multiple choice tests, wrong answers will have penalization.

Personalized attention	
Methodologies	Description
Guest lecture / keynote speech Problem solving Mixed objective/subjective test	Personalized attention in small group and in individual office hours, especially in relation to the work and other activities presented in the classroom or in Moodle.
