General description	The study of world economy must	t be based on th	ne identification o	f the essential elements	that both define and identify the
	socioeconomic reality that we aim	n to analyse. The	e international ed	onomy is conceived as	an interdependent system in
	which the main dynamism arises	from the capital	istic center altho	ugh its effects are quickl	y spread today all over the world.
	Therefore, we must begin identify	ing the structura	al features of cap	italism and defining thei	r international economic relations
	Therefore, we must begin identify and conceptualizing the developm	-		italism and defining thei	r international economic relations

Moodle

	Study programme competences
Code	Study programme competences
A1	Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and
	weaknesses

A2	Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned
А3	Evaluate and foreseeing, from relevant data, the development of a company.
A4	Elaborate advisory reports on specific situations of companies and markets
A5	Write projects about specific functional areas (e.g. management, marketing, financial) of the company
A6	Identify the relevant sources of economic information and to interpret the content.
A7	Understand economic institutions as a result and application of theoretical or formal representations which explain the evolution of the
	economy.
A8	Derive, based on from basic information, relevant data unrecognizable by non-professionals.
A9	Use frequently the information and communication technology (ICT) throughout their professional activity.
A10	Read and communicate in a professional environment at a basic level in more than one language, particularly in English
A11	To analyze the problems of the firm based on management technical tools and professional criteria
A12	Communicate fluently in their environment and work by teams
B1	CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary
	education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their
	field of study
B2	CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demostrated
	by means of the elaboration and defense of arguments and solving problems within their area of work
В3	CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include
	reflection on relevant social, scientific or ethical
B4	CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled
B5	CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy
В6	CG1-Perform duties of management, advice and evaluation in business organizations
В7	CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships
	between them and with the overall objectives of the organization
В8	CG3- Know how to make decisions, and, in general, assume leadership roles.
В9	CG4-Learn to identify and anticipate opportunities, allocate resources, organize information, select and motivate people, make decisions
	under conditions of - uncertainty, achieve the proposed objectives and evaluate results
B10	CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal
	opportunities, non-discrimination and universal accessibility for people with disabilities.
C1	Express correctly, both orally and in writing, in the official languages of the autonomous region
C4	To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose
	problems, formulate and implement knowledge-based solutions oriented to the common good
C5	Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs
C6	Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.

Learning outcomes	
Learning outcomes	Study programme
	competences

Know the basic features of the world and Spanish economies.	A1	B1	C1
	A2	B2	C8
2. Know the interrelationships between the flows of production, income and expenditure, familiarizing the students with the	A3	B8	
main macro magnitudes of an economy.	A4	В9	
	A10	B10

	Methodologies
Methodologies	Description
Introductory activities	Introduction to the subject where the lecturer explains to the students the development of the program, the basic tools for measuring the economic activities, statistics sources to be used during the course and recommended readings and requirements for continuous assessment.
Guest lecture / keynote speech	An expository method will be used in order to facilitate the students suitable information on the fundamental knowledge related to different topics
Oral presentation	The student must orally present current news about the world and Spanish economies.
Mixed objective/subjective test	Written test about theoretical and practical knowledge and skills acquired on the world and Spanish economies.
Workshop	Actividades en clase, solución problemas, lecturas, participación en clase

Personalized attention	
Methodologies	Description

Oral presentation	
	Two subgroups of 15 students will be formed. The tutorials will last up to 4 hours for each of these subgroups. There will be a
	planning throughout the course. Students will be notified in advance.
	Designed to enhance self-learning of students by both monitoring and supervising several programmed activities, such as
	searching for economic data, bibliographic resources, problems solving or presentation of works.

		Assessment	
Methodologies	Competencies	Description	Qualification
Mixed	A7 A8 C6 C8	Written exam to test the knowledge and skills acquired in the course. It will be held	60
objective/subjective		during the exam period. In order to pass the course it is required to obtain a minimum	
test		of 4 points out of 10 in the final exam.	
Oral presentation	A10 C7	One or two individual oral presentations. When assigning points, the topic and the	5
		ability to comunicate will be taking into account	
Workshop	A1 A2 A11 B2 B3 B4	Classroom activities, problem solving, reading, class participation.	35
	B5 B8 B9 B10 C1 C4		

Assessment comments

Qualification of "No presentado". For students whose participation in the assessment activities is less than 20

% of the total assessment, regardless of the qualification achieved.

In order to pass the course, it is

necessary to obtain a minimum of 5 points out of 10 (final grade) and a minimum

of 4 points out of 10 in the final exam (if the final exam is divided in parts, a minimum of 4 points out of 10 is required in each one of the parts).

"Second opportunity". The same grading criteria will be applied.

The conditions of the Second opportunity and those of the advanced one will be the same.

Conditions of conducting the final written exam. It is forbidden to access the classroom with any device which allows communication with external and/or storage of information.
