Assessment comments

-To pass this course, you must be graded with at least 5 (out of 10) IN EACH OF THE assigned activities (i.e. essays, presentation, etc.) and with at least 5 (out of 10) in the FINAL GRADE.

-Given that the Master's Degree

consists of both attendance-based and distance training, students are required

to attend the classroom sessions, unless they have applied for, and have been

granted, official exemption from class attendance. In this case, the evaluation

will be done as follows: participation through channels such as e-mail,

discussion forums, virtual platform, etc. (10%); oral or written exam (20%);

other forms of written work (50%); and oral presentation, either live or

recorded (20%). These rules are applicable to the students who, for duly justified reasons, have not been able to access the continuous assessment method specified above.

-Students

who do not submit a supervised project, or who fail

to submit at least 50% of the other tasks for assessment, will be graded as

absent from assessment (NP: no presentado).

-Students

who do not pass in the first opportunity will be able

to re-sit in July, when they will be required to demonstrate that they have

acquired the skills for each module via two types of assessment: a supervised

project with the same percentage value and characteristics as in the first

opportunity, plus the exercises agreed upon with the lecturer(s) as a

substitute for the other activities of the module.

-As

the common guide says, the total competencies to be acquired in this subject

are: CB6, CB7, CB9,

G01, G02, G04, G05, G06, G08, G09, G10, E09, E10, E11.

-All assignments must be submitted in time and in the specified format in order to avoid a penalty of 25% on the grade obtained.

-Teachers can use the "Turnitin" plagiarism detection service to review student work. Plagiarism in any activity will mean obtaining a "zero" in it.

-If the coordinator considers it appropriate, there may be topics of self-study by the students (e.g. to increase your knowledge). These materials, which will not be subject to evaluation, will be provided on Moodle.
