<b>General description</b>	<p>This course aims to provide a detailed survey of topics in modern English grammar covering up to the simple sentence. The main emphasis is on description rather than grammatical theory, and we shall follow the broadly-based approach associated with the grammars of Quirk and his associates. Attention will also be paid to the work of other authors of the Functionalist and Systemic tradition.</p> <p>In the practical classes, students will be trained in the use of grammatical structures at advanced level, since an understanding of the mechanics of language is no substitute for active use and control of the language itself.</p> <p>Desired learning outcome for linguistic competence: C1</p>				

<b>Contingency plan</b>	<p>1. Modifications to the contents</p> <p>No changes are expected.</p> <p>2. Methodologies</p> <p>*Teaching methodologies that are maintained</p> <p>All methodologies will be maintained during distance learning by means of Teams, Moodle and email, within the official class schedule. The most suitable computer tools will be used for each methodology. The workload of students will not be increased.</p> <p>*Teaching methodologies that are modified</p> <p>Students will be allowed to do the oral presentation individually.</p> <p>3. Mechanisms for personalized attention to students</p> <p>Email: Monday to Friday from 9:00 to 17:00.</p> <p>Moodle: During official class and office hours.</p> <p>Teams: During official class and office hours. Individual video calls should be requested in advance.</p> <p>4. Modifications in the evaluation</p> <p>*Evaluation observations:</p> <p>The mixed test(s) will take place synchronously, i.e. you will not receive the test(s) prior to the exam date and you will have a limited amount of time to complete it. They will be conducted using Moodle/Microsoft Teams.</p> <p>In the event of any justified problems related to internet connectivity during synchronous exams, affected students will be sent examination tasks via email and/or by telephone.</p> <p>5. Modifications to the bibliography or webgraphy</p> <p>Digital materials will be available on Moodle.</p>

Assessment comments

## IMPORTANT

In order to pass this course, a minimum of 5 out of 10 in the final mark is required. A score of 4 out of 10 is the minimum required in each of the parts of the course (workshop/supervised projects/oral presentation/mixed test).

Deadlines for assignments are strict. Late arrivals will be penalised, unless they are duly justified.

Pieces of work including plagiarized material will be marked with 0. To detect plagiarism, the application Turnitin could be used. This application recognises papers previously turned in by other people (or the student him/herself) at this university or other universities.

All the extra-credit material carried out by the students during the course could be awarded up to an extra 5% of the final mark. This can include voluntary work, alternative readings or any other activity proposed and accepted by students and teachers.

The students who do not attend the official exam will be given a grade of NP (absent) if they have not handed in more than 50% of the continuous assessment activities.

The dates for the supervised projects, oral presentation and mixed objective tests will be announced well ahead of time.

July opportunity: Those students with less than a 4 in each of the parts evaluated in the course (even if the average is superior to 5) will have to sit for the "second opportunity exam session" in July, where students can retake those parts they have failed, according to the following distribution of percentages: Supervised project (20%), oral presentation (20%), written tasks similar to those evaluated during the course (20%), mixed test about the contents of the course (40%).

Students sitting the December exam (final exam brought forward) will be assessed according to the criteria specified for the July opportunity.

Students who are officially registered as part time, and have been granted permission not to attend classes, as stipulated in the regulations of this University, will be assessed in either of the opportunities according to the same criteria specified for the second opportunity.

## IMPORTANTE:

Para superar a materia, a suma da proba final, o traballo tutelado, a presentación oral e demais actividades avaliáveis deberá ser 5 sobre 10, tendo en conta que a cualificación mínima de cada unha das partes (actividades do obradoiro/ traballo tutelado e exposición oral do mesmo/proba

mixta) deberá ser de 4 puntos sobre 10.

Aplicarase unha penalización do

25% sobre a cualificación final de traballos e actividades se estes son entregados fóra de prazo sen causa xustificada. Os alumnos/as que non se presenten o día das probas obxectivas de xuño ou xullo acadarán a cualificación de NP, se non entregaron máis do 50% de actividades durante o curso.

## AVALIACIÓN

**XULLO:** Os/as estudantes que non presenten o traballo tutelado, ou que non teñan acadado un 4 en cada un dos bloques avaliados (aínda que a nota media sexa superior a 5) terán que ir á oportunidade de xullo, na que cada estudante terá que demostrar ter acadadas as competencias da materia mediante a entrega dun traballo escrito e defensa oral do mesmo en substitución do traballo tutelado, a superación de actividades escritas semellantes ás avaliadas ao longo do curso e, finalmente, mediante unha proba mixta sobre os contidos do curso. As instrucións e porcentaxes concretas faranse públicas despois da publicación das cualificacións finais en xuño.

Alumnado

con dispensa: O alumnado matriculado a tempo parcial e que teña concedida unha dispensa académica deberá porse en contacto co profesorado da materia a principio de curso para planificar, en cada situación concreta e individual, os axustes necesarios na avaliación, no tocante as porcentaxes de "obradoiro", "traballos tutelados" e "presentación oral".
