| Web | | | | | |
| General description | The objectives of this subject are: - To know the basic concepts of the architecture of information systems, the conceptual models to define these architectures, and the languages to represent them - To know how to model the architecture of an information system using design patterns - To know how to integrate information systems by means of different software techniques - To know modern technological solutions to develop information systems | | | | |
| Contingency plan | 1. Modifications to the contents 2. Methodologies *Teaching methodologies that are maintained *Teaching methodologies that are modified 3. Mechanisms for personalized attention to students 4. Modifications in the evaluation *Evaluation observations: 5. Modifications to the bibliography or webgraphy | | | | |

Study programme competences / results

| Code | Study programme competences / results |
|------|--|
| A47 | Capacidade para determinar os requisitos dos sistemas de información e comunicación dunha organización de acordo cos aspectos de seguridade e cumprimento da normativa e a lexislación vixente. |
| A48 | Capacidade para participar activamente na especificación, deseño, implementación e mantemento dos sistemas de información e comunicación. |
| A49 | Capacidade para comprender e aplicar os principios e as prácticas das organizacións, de forma que poidan exercer como enlace entre as comunidades técnica e de xestión dunha organización, e participar activamente na formación dos usuarios. |
| B1 | Capacidade de resolución de problemas |

| | |
|----|---|
| B2 | Traballo en equipo |
| B3 | Capacidade de análise e síntese |
| B4 | Capacidade para organizar e planificar |
| C3 | Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para a aprendizaxe ao longo da súa vida. |
| C6 | Valorar criticamente o coñecemento, a tecnoloxía e a información dispoñible para resolver os problemas cos que deben afrontarse. |

| Learning outcomes | | | |
|--|---------------------------------------|----------------------|----------|
| Learning outcomes | Study programme competences / results | | |
| To know the basic concepts of the architecture of information systems | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know the conceptual models to define the architecture of information systems | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know the languages to represent the architecture of information systems | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know how to model the architecture of an information system using design patterns | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know how to integrate information systems by means of different software techniques | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know how to create an information system using a service-oriented architecture | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |
| To know modern technological solutions to develop information systems | A47 A48 A49 | B1 B2 B3 B4 | C3 C6 |

| Contents | |
|--|---|
| Topic | Sub-topic |
| Conceptos básicos | Definición de arquitectura de sistemas de información Modelos conceptuais para arquitecturas de sistemas de información Linguaxes para arquitecturas de sistemas de información |
| Modelado de arquitecturas de sistemas de información | Patróns de deseño Integración de sistemas Arquitecturas orientadas a servizos |
| Solucións tecnolóxicas | Xestión da infraestrutura Liberías de desenvolvemento |

Planning

| Methodologies / tests | Competencies / Results | Teaching hours (in-person & virtual) | Student?s personal work hours | Total hours |
|---------------------------------|----------------------------------|--------------------------------------|-------------------------------|-------------|
| Guest lecture / keynote speech | B1 | 14 | 0 | 14 |
| Collaborative learning | A47 A48 A49 B1 B3 C3 C6 | 14 | 0 | 14 |
| Case study | A47 A48 A49 B1 B3 C3 C6 | 14 | 0 | 14 |
| Supervised projects | A47 A48 A49 B1 B2 B3 B4 C3 C6 | 0 | 90 | 90 |
| Mixed objective/subjective test | A47 A48 A49 B3 C6 | 0 | 14 | 14 |
| Personalized attention | | 4 | 0 | 4 |

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

| Methodologies | Description |
|---------------------------------|---|
| Guest lecture / keynote speech | Lectures that will present theoretical contents in combination with practical exercises. |
| Collaborative learning | Resolution by teams of students of problems of reduced size related to the contents of the subject. |
| Case study | Presentation to the students of real cases that have to be resolved using the knowledge acquired in the subject. |
| Supervised projects | Development by each student of projects in which they put in practice what was learnt in the subject. |
| Mixed objective/subjective test | Development of one individual written test where there will be both open questions and questions with brief answers |

Personalized attention

| Methodologies | Description |
|---|--|
| Supervised projects Collaborative learning Case study | After proposing a problem, the professor will debate with the students the possible solutions and typical errors until a satisfactory solution is reached. In the laboratory practices, there will be a personalized attention to each student because there will be less than 20 people working in small groups, directly on a concrete application, in each computer and the professor will be able to attend punctual doubts to each student or group. |

Assessment

| Methodologies | Competencies / Results | Description | Qualification |
|---------------------------------|----------------------------------|---|---------------|
| Mixed objective/subjective test | A47 A48 A49 B3 C6 | Individual written test on theoretical and practical contents | 40 |
| Supervised projects | A47 A48 A49 B1 B2 B3 B4 C3 C6 | The quality of the supervised projects will be assessed | 50 |
| Case study | A47 A48 A49 B1 B3 C3 C6 | Seguimiento continuado dos exercicios e casos de dise?o propostos durante as clases | 10 |

Assessment comments

To pass you must obtain the following minimum qualifications:

Mixed test: 3 points out of 6 Supervised projects: 2 points out of 4

To be qualified as "did not attend" is to not submit the mixed test. The criteria for the second opportunity are the same as for the first opportunity.
