Assessment comments

Exam texts will be written in Spanish. Exam texts in Galician will be available for students asking for them up to 15 days before the date of the exam.

Mixed objective/subjective test rules: Any device that permits external communication, or information storage is not allowed. Infringement of these rules will imply the student be assessed by oral presentation only.

Practices shall be submitted during the term, before the deadlines settled.

Non presented mark is only for students that did not attend assessment tasks over a 20% of the total.

Guest lecture/keynote speech: Up to 2 marks for individual tasks and random evaluation tests.

Problem solving Up to 4 marks can be added for the realization and oral or written presentation of individual or group practices. To this end, the questionnaires proposed by the teacher must be completed and sent within the established period. The questionnaires corresponding to the first part and the second part, respectively, will be evaluated with a maximum of two marks each.

Mixed objective/subjective test:

The first test will assess lessons 1 to 5, and it will take place, following the lectures on those lessons (normally in the middle of the term). Maximum grade is 2 marks. Students that passed this test (a minimum of 1 point) don't need to repeat this test in the exam at the end of the term. Accordingly, those students will be assessed at the end of the term just about lessons 6 to 8, unless they hand in the solution for the exam about lessons 1 to 3. In that case, The best of the two assessments will be added to their grades.

On the second opportunity, the marks corresponding to the master sessions and problem solving will be maintained, but not the marks obtained in the mixed tests. The second chance exam will get a maximum of 4 points. Students can ask for an oral exam to try to increase their grades in Guest lecture/keynote speech and problem solving. Maximum score of the oral examination is 6 marks. The oral exam score will only substitute the former assessment if it is higher than the addition of the Guest lecture/keynote speech and problem solving grades.

You can choose to improve the qualification of the master sessions and the resolution of problems through additional tasks, which can be assessed through an oral test and that can add up to a maximum of 6 points.

Every task shall be submitted to the teacher before the related deadline. Once submitted the solved tasks, two tests will be

scheduled to individually assess the task. The first test will comprise lessons 1 to 5, and the second, lessons 6 to 8. Those test will and a maximum of 1 point each to the total marks of the student.

Part-time students with academic permission

not to attend the classes will have to contact the teacher by the tenth day of the term, in order to receive an individual tutorial schedule, which will include dates for the multiple-choice questions test. Exams for these students will be held on the same date as the rest of the students.

Just for the advanced call,

students will take an unique mix test, oral or in writing, in order to assess all the competencies and contents of the subject.
