Assessment comments
<p>It is essential to achieve 50% of the grade for each one of the sections to evaluate to join the different methodologies in order to obtain an average mark end. Failure to achieve the minimum required in any of the methodologies, the student does not exceed the course. In this case, the evaluation will consist suspended in the ordinary call and may be reviewed at the July opportunity, where the evaluation methodology will be a single objective test amounting to 100% of the grade, both on theoretical and practical content of the program</p> <p>Alternatively,</p> <p>students who can not make a regular monitoring of the subject, may choose to examine 100% of its rating by an objective test end. Failure to achieve 50% of total grade on that test, the assessment will consist suspended in the ordinary call and may be reviewed at the July opportunity, where the evaluation methodology will be a single objective test amounting to 100% of qualification, versando both on theoretical and practical content of the program.</p>
