General description						
Contingency plan	1. Modifications to the contents: N	None				
	2. Methodologies					
	*Teaching methodologies that are maintained					
	*Teaching methodologies that are modified					
	All the methodologies are maintained, but the lectures will be online if required by the COVID 19 measures.					
	3. Mechanisms for personalized attention to students					
	Teams, moodle and email.					
	4. Modifications in the evaluation					
	None.					
	*Evaluation observations:					
	Modifications to the bibliograph	ny or webaranh				
	o. Modifications to the bibliograph	iy or webgrapi	ıy			

	Study programme competences
Code	Study programme competences
А3	To develop competencies for interpersonal relations and interaction with external and internal stakeholders (customers, suppliers, media, partners?)
A9	To master the logistics process of a fashion firm from a global perspective, from procurement to manufacturing and transportation, with a
	special focus on the typical textile industry processes: selection of materials and fabrics, patternmaking, manufacturing, etc, ?
A13	To know the impact of technology on the different processes of the textile industry
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the avantgarde of its field of study
B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
В3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
B8	Capacity to plan, organize and manage resources and operations

В9	Capacity to analyse, diagnose and take decisions
C2	Mastering oral and written expression in a foreign language.
С3	Using ICT in working contexts and lifelong learning.
C7	Developing the ability to work in interdisciplinary or transdisciplinary teams in order to offer proposals that can contribute to a sustainable
	environmental, economic, political and social development.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.
C9	Ability to manage times and resources: developing plans, prioritizing activities, identifying critical points, establishing goals and
	accomplishing them.

Learning outcomes				
Learning outcomes		Study programme		
	co	mpeten	ces	
To know the basic concepts of operations management	A3	B1	C2	
	A9	B2	C7	
	A13	В3	C8	
		B4		
		B5		
		B8		
		В9		
To know how to solve problems related to operations management		B1	C3	
	A13	B2	C7	
		В3	C9	
		B4		
		B8		
		B9		
To become familiar with the technologies used in the operations management area	A3	B2	C2	
	A9	В3	СЗ	
	A13	B8	C8	
		B9	C9	

	Contents
Topic	Sub-topic
Process design and capacity planning.	Introduction to operations strategy. Productivity. Capacity and utilization. Long term
	capacity planning. Queuing models.
Quantitative methods for operations management.	Linear optimization. Non linear problems. Solver. Metaheuristics. Modelling and
	simulation.
Inventory management.	Basic concepts. Types. ABC classification.
Inventory costs.	Carrying costs. Ordering costs. Opportunity costs.
Inventory models.	Methods based on the Economic Quantity Order. Safety stocks. Continuous and
	periodic review policies. Methods based on the Newsvendor model.
Project management.	Tasks. Resources. Costs.
Schedulling.	Single server schedulling. Parallel servers. Flow line schedulling. Priorities.
Quality Management.	ISO 9001. Six sigma methodology.
Lean Enterprise.	Just in Time. Lean manufacturing. Types of waste. Methods to avoid waste. 5S
	methodology.

ICT practicals	A9 A13 B1 B3 B4 B8	Practical test using software	35
	B9 C3 C8 C9		
Mixed	A3 A9 A13 B1 B2 B3	Exam on the theoretical contents of the subject	30
objective/subjective	B5 B9 C9 C2		
test			

## **Assessment comments**

The "Students with recognition of part-time dedication and academic exemption waiver" will communicate their situation to the teaching staff of the subject at the beginning of the course, according to the "Norm that regulates the regime of dedication to the study of the students of degree in the UDC "(Art.3.be 4.5) and the "Standards of evaluation, review and claim of the qualifications of the studies of degree and master's degree" (Art. 3 and 8b). In this case, attendance to the classes will not be a requirement, but these students must submit the cases and exercises done in the classroom and their qualification will be the same as the rest of the students.

The aforementioned evaluation criteria will apply to both the first and the second opportunity.

The grade of 'Not present' will only be given to students who only participated in course activities worth under 20% of the final grade.

The grade obtained by students who pass a portion of the course with a mixed exam (partial exam), will be valid only for the ongoing academic year. If a student in such situation fails to pass the complete course in either the first opportunity or the second opportunity, his/her final grade will be 'Fail', implying that he/she will have to re-take the whole course during incoming academic years.

Students wishing to improve their final test exam grade will be able to do so only after applying to the professors and securing their authorization. Students taking the anticipated December opportunity will be subject to the same criteria as those applying to second opportunity.

It is forbidden to access the classroom with any device allowing for data transmission and/or warehousing when any of the evaluations is taking place.

Other comments

Subjects that continue the syllabus

In order to help in the achievement of a sustained immediate environment and meet the objective of action number 5: "Healthy and sustainable environmental and social teaching and research" of the "Green Campus Ferrol Action Plan", it will be encouraged, as far as possible, that the delivery of the documentary works in this subject was done in a virtual format and/or computer support, through Moodle and without the need to print them. If paper delivery is necessary, the following guidelines will be followed: Plastics will not be used Double-sided prints will be made Recycled paper will be used The printing of drafts will be avoided

(\*)The teaching guide is the document in which the URV publishes the information about all its courses. It is a public document and cannot be modified. Only in exceptional cases can it be revised by the competent agent or duly revised so that it is in line with current legislation.
