	Identifying	g Data			2021/22
Subject (*)	Initiation to Research Code			610509333	
Study programme	Mestrado Universitario en Investig	ación Química e Quí	mica Industria	al (Plan 2020)	
		Descriptors			
Cycle	Period	Year		Туре	Credits
Official Master's Degre	ee 1st four-month period	First		Optional	6
Language	Spanish				
Teaching method	Face-to-face				
Prerequisites					
Department	Química				
Coordinador	Fernandez Sanchez, Jesus Jose		E-mail	jesus.fernandez	s@udc.es
Lecturers	Fernandez Sanchez, Jesus Jose		E-mail	jesus.fernandez	s@udc.es
Web				I	
General description					
Contingency plan	1. Modifications to the contents				
	2. Methodologies				
*Teaching methodologies that are maintained *Teaching methodologies that are modified					
	3. Mechanisms for personalized attention to students				
4. Modifications in the evaluation					
	*Evaluation observations:				
5. Modifications to the bibliography or webgraphy					

	Study programme competences
Code	Study programme competences
A3	Innovate in the methods of synthesis and chemical analysis related to the different areas of chemistry
A5	Properly assess risks and environmental and socioeconomic impacts associated with special chemicals
A7	Operate with advanced instrumentation for chemical analysis and structural determination.
A8	Analyze and use the data obtained independently in complex laboratory experiments and relating them with the chemical, physical or
	biological appropriate techniques, including the use of primary literature sources
B2	Students should apply their knowledge and ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary)
	contexts related to their field of study.
B3	Students should be able to integrate knowledge and handle complexity, and formulate judgments based on information that was
	incomplete or limited, include reflecting on social and ethical responsibilities linked to the application of their knowledge and judgments.
B4	Students should be able to communicate their conclusions, and the knowledge and the reasons that support them to specialists and
	non-specialists in a clear and unambiguous manner
B6	Innovate in the different areas of chemistry, demonstrating initiative and entrepreneurship
B7	Identify information from scientific literature by using appropriate channels and integrate such information to raise and contextualize a
	research topic
B8	Evaluate responsibility in the management of information and knowledge in the field of Industrial Chemistry and Chemical Research
B9	Demonstrate ability to analyze, describe, organize, plan and manage projects
B10	Use of scientific terminology in English to explain the experimental results in the context of the chemical profession

B1	11	Apply correctly the new technologies to gather and organize the information to solve problems in the professional activity.
С	21	CT1 - Elaborar, escribir e defender publicamente informes de carácter científico e técnico
С	2	CT2 - Traballar en equipo e adaptarse a equipos multidisciplinares.
С	3	CT3 - Traballar con autonomía e eficiencia na práctica diaria da investigación ou da actividade profesional.
