Assessment comments

Evaluation regulations:
It is forbidden to access the classroom with devices that allow communication with the outside and storage of information. The student must prove his identity in accordance with the regulations.

Mixed exam:
In the answer to the questions of the theoretical block that require to develop in writing the answer, will be especially valued, in addition to the knowledge, the capacities of analysis and synthesis of the student. In the practical part, the ability to apply the concepts and principles addressed in the theoretical part to solve practical cases will be especially valued. The test score is set to a maximum of 4 points.

Advanced opportunity and second opportunity: In the second opportunity and in the advance, students who wish to do so will be able to recover the part of the continuous evaluation corresponding to the objective tests (test) carried out in the first semester. This corresponds to a maximum of 20% of the final grade.

The grade of "not evaluated" corresponds to the student when he only participates in evaluation activities that have a weight less than 20% in the final grade, regardless of the grade reached.

Students with recognition of part-time and academic exemption from attendance: This situation must be notified to the professor at the beginning of the course and a schedule compatible with their dedication will be agreed except in the case of the final tests. In this case, the evaluation criteria will be governed by the performance of a mixed test with a weighting of 100% in the grade. This test will include theoretical and practical questions and the student must demonstrate that he has achieved the competences and learning results of the subject.
