General description	The main objective of this subject is to familiarize to the student with the main aspects of the decision-making processes of the authorities as regards economic policy. For this, we deal with the basic concepts and explanatory principles of the economic policy processes. In particular the main objectives and instruments of economic politics are analysed. As a result of the development of the theoretical and practical aspects of the course, the student should be able to identify and interpret the role of public decisions in the economic facts.			
Contingency plan	1. Modifications to the contents: No changes will be made. 2. Methodologies *Teaching methodologies that are maintained: All of them, but with the necessary adaptation/s to online teaching. *Teaching methodologies that are modified. 3. Mechanisms for personalized attention to students: For the personalized attention, Microsoft Teams will be used (same timetable as face-to-face classes), as well as Moodle (continuous assessment activities and exams) and the e-mail (tutorials). 4. Modifications in the evaluation: The evaluation activities will be the ones stated in this teaching guide, but they will be adapted to an online evaluation system. *Evaluation observations: Alternative dates and assessment methods will be available for those students who has connection problems during the online assessment activities. 5. Modifications to the bibliography or webgraphy: No changes will be made.			

## Study programme competences

Code	Study programme competences
A1	Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and weaknesses
A2	Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned
A3	Evaluate and foreseeing, from relevant data, the development of a company.
A4	Elaborate advisory reports on specific situations of companies and markets
A5	Write projects about specific functional areas (e.g. management, marketing, financial) of the company
A6	Identify the relevant sources of economic information and to interpret the content.
A7	Understand economic institutions as a result and application of theoretical or formal representations which explain the evolution of the economy.
A8	Derive, based on from basic information, relevant data unrecognizable by non-professionals.
A9	Use frequently the information and communication technology (ICT) throughout their professional activity.
A10	Read and communicate in a professional environment at a basic level in more than one language, particularly in English
A11	To analyze the problems of the firm based on management technical tools and professional criteria
A12	Communicate fluently in their environment and work by teams
B1	CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their field of study

B2	CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demonstrated by means of the elaboration and defense of arguments and solving problems within their area of work
B3	CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include reflection on relevant social, scientific or ethical
B4	CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled
B5	CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy
B6	CG1-Perform duties of management, advice and evaluation in business organizations
B7	CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships between them and with the overall objectives of the organization
B8	CG3- Know how to make decisions, and, in general, assume leadership roles.
B9	CG4-Learn to identify and anticipate opportunities, allocate resources, organize information, select and motivate people, make decisions under conditions of - uncertainty, achieve the proposed objectives and evaluate results
B10	CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal opportunities, non-discrimination and universal accessibility for people with disabilities.
C1	Express correctly, both orally and in writing, in the official languages of the autonomous region
C4	To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose problems, formulate and implement knowledge-based solutions oriented to the common good
C5	Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs
C6	Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The main aspects of the subject are explained.
Workshop	Different activities that require the active participation of students will be carried out. The students' analysis and reasoning capacity will be valued, deepening in the contents characteristic of the subject. As for the student's specific work, questions of short answer will be posed to value both the learning grade and the synthesis capacity; furthermore, there will be questions of wide answer related with aspects of the subject usually with reference to a text, a graph, a piece of news, etc. and where appropriate, there could also be multiple-choice questions.
Document analysis	Different documental resources will be used to contribute to reach the objectives of this subject. They will help both to secure theoretical knowledge and to carry out the workshop activities.
Workbook	In each part of the program the professors may provide the students some document(s) that could help them to deepen in the theoretical contents of the subject. This documentation may also be used as support material for the rest of methodologies of more practical nature.
Mixed objective/subjective test	At the end of the course there will be a written test that will combine short answer or multiple answer questions with some broad questions. This exam model is intended to assess the knowledge acquired by the student throughout the course, as well as the reasoning capacity, creativity and critical spirit of the student.

Personalized attention	
Methodologies	Description
Workshop	To optimize the use of this methodology the individual learning needs of each student will be taken into account.  For those students with part-time dedication recognition an individual plan will be settled down for the continuous evaluation during the first days of the course.

Assessment			
Methodologies	Competencies	Description	Qualification
Workshop	A1 A2 A3 A4 A5 A6 A7 A8 A9 A10 A11 A12 B1 B2 B3 B4 B5 B6 B7 B8 B9 C1 C4 C5 C6 C8	Activities carried out throughout the course. Within this section, participation in classes and practical activities developed and presented by the student during the course are considered.	40

Mixed objective/subjective test	B1 B2 B3	Assessment in a final exam. It consists of taking a written exam where all the content developed during the course is evaluated.	60
---------------------------------------	----------	--	----

Assessment comments

Grade of non-attendance: For

those students who take part in evaluation activities whose value is less than 20% of the final grade, independent of the mark they had achieved.

Resit exam:

The assessment criteria will be the same as it was in the first opportunity.

Forward

call: 100% of the mark in the final exam.

Part-time students and class

attendance exemption: With the exception of the dates

approved by the Faculty Assembly (final exams), a specifically-scheduled evaluation will be established at the beginning of the academic year, according to their personal commitment.

Final assessment

conditions: Phones, Smart Watches or any other smart /

wearable technology will not be allowed into the exams. Check with your lecturer and confirm which devices are permitted.

Student identification: In accordance with

current rules, students must place their student card on the desk for proctors to view.
