General description	Cost Accounting and Managemen	t Accounting are behind any d	ecision or strategy of the	company. Costs and returns are			
	relevant information elements in the	e decision-making process of	the company or not-for-pr	ofit organization. To know their			
	nature, calculation and influence of	n the decision to take, are bas	sic skills for a professional	who wants to properly deal with			
	management problems.						
Contingency plan	Modifications in the contents: there will be no modification in the contents.						
	2. Methodologies						
	* Teaching methodologies that are	maintained: all					
	* Teaching methodologies that cha	ange: none					
	3. Mechanisms of personalized att	ention to students:					
	- E-mail						
	- Teams platform for general and	•					
	- Moodle platform: consultation for						
	- Students who are unable to atter		•	3 , ,			
	their avaliation preference (genera		,				
	virtual tutoring per week in addition	n to general online tutoring. (s	chedules will be set at the	beginning of the course).			
	Students who are unable to attend	face-to-face classes due to to	emporary illness due to CO	OVID or quarantine related to			
	COVID may continue their avaliati	on in an online mode like stud	ents in the previous group	, but may continue their			
	avaliation according to the general criteria.						
	4. Modifications in the evaluation						
	In the case of not being able to de	velop face-to-face tests, these	will be developed online	using any of the virtual platforms			
	accepted by the University of A Co	•		,			
	5. Modifications to the bibliography	or webography					
	Students will have sufficient materials on the subject's Moodle platform, or access to virtual materials will be provided.						

Study programme competences	
Code	Study programme competences

A1	Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and weaknesses
A2	Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned
А3	Evaluate and foreseeing, from relevant data, the development of a company.
A4	Elaborate advisory reports on specific situations of companies and markets
A5	Write projects about specific functional areas (e.g. management, marketing, financial) of the company
A6	Identify the relevant sources of economic information and to interpret the content.
A7	Understand economic institutions as a result and application of theoretical or formal representations which explain the evolution of the
	economy.
A8	Derive, based on from basic information, relevant data unrecognizable by non-professionals.
A9	Use frequently the information and communication technology (ICT) throughout their professional activity.
A10	Read and communicate in a professional environment at a basic level in more than one language, particularly in English
A11	To analyze the problems of the firm based on management technical tools and professional criteria
A12	Communicate fluently in their environment and work by teams
B1	CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary
	education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their
	field of study
B2	CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demostrated
	by means of the elaboration and defense of arguments and solving problems within their area of work
В3	CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include
	reflection on relevant social, scientific or ethical
B4	CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled
B5	CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy
В6	CG1-Perform duties of management, advice and evaluation in business organizations
B7	CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships
	between them and with the overall objectives of the organization
B8	CG3- Know how to make decisions, and, in general, assume leadership roles.
B9	CG4-Learn to identify and anticipate opportunities, allocate resources, organize information, select and motivate people, make decisions
	under conditions of - uncertainty, achieve the proposed objectives and evaluate results
B10	CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal
	opportunities, non-discrimination and universal accessibility for people with disabilities.
C1	Express correctly, both orally and in writing, in the official languages of the autonomous region
C4	To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose
	problems, formulate and implement knowledge-based solutions oriented to the common good
C5	Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs
C6	Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions
C7	Assume as professionals and citizens the importance of learning throughout life.
C8	Assess the importance of research, innovation and technological development in the economic and cultural progress of society.

Learning outcomes					
Learning outcomes			amme ces		
The student is able to express himself orally and in writing, correctly employing the basic concepts of the subject: purchase,	A4	B1	C1		
cost, expense, investment and payment.			C6		
		B4	C7		
Identify the characteristics of the internal and external areas of the company: economic, social and environmental, as well as	A1	В3	C6		
the accounting models related to them.	A2				
	A3				
	A11

Assessment comments

The criteria of evaluation here specified are valid either for the first or second opportunity. Pass the matter will require that the student should have been valued for his participation in the " mixed test " and the " study of cases ".Not presented qualification corresponds to the student who had participated in activities of evaluation that have a weight lower than 20 % on the final qualification, with independence of the obtained qualification. Second opportunity: in the second opportunity the evaluation criteria will be the same as in the first opportunity, but to guarantee that the students can pass the subject they will be able to recover 20% of the continuous evaluation in the final mixed test answering a series of theoretical and / or practical questions. Convocatoria adelantada and students with recognition of part-time dedication (and exemption of assistance): Student can choose a mixed test with a weight of 100 % on the qualification, or follow general criteria. 100% mixed test will consist of a mixed test in which there will be included theoretical and practical questions and of which the student has to prove have reached the competences and the results of learning of the matter. The option will be communicated to the teaching staff within the first academic month. The minimal qualification to pass is 5 (50 %). OTHER REQUIREMENTS:- Exam access with electronic devices is forbiden except in those cases where responsible teachers could establish otherwise.- A properly identification is required to access the exam room.

Subjects that are recommended to be taken simultaneously
Subjects that continue the syllabus
Other comments

1. The delivery of the documentary works to be carried out in this subject:a. It will be requested in virtual format and/or computer support.b. It will be done through Moodle, in digital format without the need to print them.2. The importance of ethical principles related to sustainability values in personal and professional behaviors must be taken into account.3. Work will be done to identify and modify sexist prejudices and attitudes and will influence the environment to modify them and promote values of respect and equality.4. We will facilitate the full integration of students who, for physical, sensory, psychological or sociocultural reasons, experience difficulties in gaining adequate, equal and beneficial access to university life.
