

Teaching Guide						
Identifying Data				2021/22		
Subject (*)	Data Warehousing		Code	614G01043		
Study programme	Grao en Enxeñaría Informática					
Descriptors						
Cycle	Period	Year	Type	Credits		
Graduate	2nd four-month period	Third	Optional	6		
Language	Spanish/Galician					
Teaching method	Hybrid					
Prerequisites						
Department	Ciencias da Computación e Tecnoloxías da Información/Computación					
Coordinador	Ladra González, Susana	E-mail	susana.ladra@udc.es			
Lecturers	Ladra González, Susana Silva Coira, Fernando	E-mail	susana.ladra@udc.es fernando.silva@udc.es			
Web	moodle.udc.es					
General description	As "Data Warehousing" we understand everything related to the database of the analytic environment and the course focuses on this matter					
Contingency plan	<p>1. Modifications to the contents - No changes are made</p> <p>2. Methodologies *Teaching methodologies that are maintained - All</p> <p>*Teaching methodologies that are modified - No changes are made</p> <p>3. Mechanisms for personalized attention to students - Email: Daily. Used to make queries, request virtual meetings to resolve doubts and monitor the work being supervised. - Moodle: Daily. According to the needs of the students. They have "thematic forums associated to the modules" of the subject, to formulate the necessary consultations. - Teams: Telematic session in the time slot assigned to the subject in the faculty's classroom calendar for the advancement of the expository and practical subject. Individual or small group telematic sessions to resolve doubts about the subject of the presentation, practice or supervised work</p> <p>4. Modifications in the evaluation - No changes are made, except that the written tests and defenses will be made by telematic means</p> <p>*Evaluation observations: - No additional comments</p> <p>5. Modifications to the bibliography or webgraphy - No changes are made</p>					

Study programme competences	
Code	Study programme competences
A46	Capacidade de integrar solucións de tecnoloxías da información e as comunicacións e procesos empresariais para satisfacer as necesidades de información das organizacións, permitíndolle alcanzar os seus obxectivos de forma efectiva e eficiente, e dándolle así vantaxes competitivas.
B3	Capacidade de análise e síntese

B5	Habilidades de xestión da información
C3	Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para a aprendizaxe ao longo da súa vida.
C7	Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida.
C8	Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.

Learning outcomes		Study programme competences		
Learning outcomes				
Coñecer os conceptos de bases de datos necesarios para afrontar o proceso ETL, entender o proceso analítico e diferencial do operacional, coñecer a arquitectura dun almacén de datos e saber efectuar o deseño e a explotación do mesmo, coa orientación á toma de decisións e incluíndo a utilización de ferramentas de minería de datos.		A46 B3 B5 C3 C7 C8		

Contents	
Topic	Sub-topic
Conceptos de Bases de Datos	
Introduction to Data Warehouse	
Design of Data Warehouse	
Data Mining	

Planning				
Methodologies / tests	Competencies	Ordinary class hours	Student?s personal work hours	Total hours
Laboratory practice	A46 B3 B5 C3 C7 C8	14	21	35
Problem solving	A46 B3 B5 C3 C7 C8	7	14	21
Workbook	A46 B3 B5 C7 C8	0	14	14
Mixed objective/subjective test	A46 B3 B5 C3 C7 C8	3	0	3
Supervised projects	A46 B3 B5 C3 C7 C8	0	14	14
Guest lecture / keynote speech	A46 B3 B5 C7 C8	21	42	63
Personalized attention		0		0

(\*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Laboratory practice	Son clases nas que se desenvolven as competencias procedimentais relacionadas cos contidos da asignatura. Nelas realizaranse probas e exercicios cuxo obxectivo é madurar os conceptos das clases teóricas, e introduciranse novos conceptos de carácter práctico que acompañaranse de exercicios.
Problem solving	Clases nas que se discutirán as estrategias de solución de diversos problemas propostos.
Workbook	Se propondrá a lectura de diversos traballos que complementen e axuden a entender os conceptos plantexados.
Mixed objective/subjective test	Examen da asignatura que combina conceptos teóricos, prácticos e problemas.
Supervised projects	Trabajos realizados baixo a orientación do profesorado, cuxo obxectivo é que os estudiantes asuman a responsabilidade do seu propio aprendizaxe e que aprenden "cómo hacer".
Guest lecture / keynote speech	Clases teóricas nas que se expoñen os contidos fundamentais da materia, que poden acompañarse da propuesta e a resolución de exemplos.

Personalized attention
------------------------

Methodologies	Description
Laboratory practice	Both for the ICT practicals and for problem solving, the teaching staff will provide solutions and/or answer the doubts and questions that may arise. A more personalized attention will be developed in the tutorials.
Problem solving	

Assessment			
Methodologies	Competencies	Description	Qualification
Laboratory practice	A46 B3 B5 C3 C7 C8	The maximum mark will be 4 points out of 10 of the subject. The practice must be done individually or in small groups and will be defended orally.	40
Mixed objective/subjective test	A46 B3 B5 C3 C7 C8	The maximum mark will be 3 points out of 10 for the subject. Several tests will be held during the course, dealing with theoretical concepts and practical assimilation of the subject.	30
Supervised projects	A46 B3 B5 C3 C7 C8	The maximum mark of the works will be 3 points.	30

Assessment comments
NOT SHOW:
At the first opportunity, the student who does not do the laboratory practice will have the grade of NOT SHOW.
At the second opportunity any of the parts of the evaluation can be recovered, so that the grades of this opportunity always substitute those of the first one. The student who does not make up any part of the evaluation will have a grade of NO SHOW.
ACADEMIC DISPENSATION:
Students officially enrolled part-time who have been granted an official dispensation from attending classes, as stipulated in the regulations of this University, must contact with the responsible of the course within the first two weeks to establish the conditions for submitting and defending the practical exercises and the supervised project.
ADVANCED OPPORTUNITY:
The evaluation in the advanced opportunity will consist of: mixed test (30% of the qualification), practice (40% of the qualification) and supervised project (30% of the qualification).
