General description	<p>No marco do Mestrado en Política Social, esta asignatura representa unha reflexión crítica sobre a evolución do capitalismo. Iso implica coñecer as crises do sistema e as solucións e modelos propostos para superalas. O curso estudará en detalle as consecuencias do modelo económico imposto trala crise de finais dos anos setenta, e as consecuencias sociais derivadas da aplicación de políticas económicas de oferta e axustes sociais: crecemento das desigualdades e crises de lexitimidade do sistema e os seus impactos no mercado de traballo. Especial atención merecerá o caso de Europa.</p>
