Mechanisms for personalized attention to students Moodle, TEAMS and email synchronously during class and tutorials. Asynchronously during school hours</p> <p>4. Modifications in the evaluation No changes are made *Evaluation observations:</p> <p>5. Modifications to the bibliography or webgraphy No changes are made</p>				

Study programme competences

Code	Study programme competences
A11	Empregar o inglés, falado e escrito, aplicado á navegación e ao negocio marítimo.
A50	Conocimiento y aplicación de la terminología comercial del ámbito marítimo en inglés.
A51	Capacidad para interpretar y redactar informes y documentos comerciales en inglés.
B1	Aprender a aprender.
B4	Comunicarse de xeito efectivo nun ámbito de traballo.
B5	Traballar de forma autónoma con iniciativa.
B18	Dominar a expresión e a comprensión de forma oral e escrita dun idioma estranxeiro.
C2	Dominar a expresión e a comprensión de forma oral e escrita dun idioma estranxeiro.
C12	Que os estudantes saiban comunicar as súas conclusións e os coñecementos e razóns últimas que as sustentan a públicos especializados e non especializados dun xeito claro e sin ambigüidades
C13	Que os estudantes posúan as habilidades de aprendizaxe que lles permitan continuar estudando dun modo que haberá de ser en grande medida autodirixido ou autónomo.

Learning outcomes

Learning outcomes	Study programme competences		
	A11		
Use spoken and written English, applied to navigation and maritime business	A11		
Knowledge and application of commercial terminology of the maritime field in English.	A50		
Ability to interpret and write reports and business documents in English	A51		
Learn to learn.		B1	
Communicate effectively in a work environment.		B4	
Work autonomously with initiative.		B5	
Master the oral and written expression and comprehension of a foreign language.			C2
Master the oral and written expression and comprehension of a foreign language.		B18	
That students know how to communicate their conclusions knowledge and ultimate reasons that sustain them to specialized and non-specialized audiences in a clear and unambiguous way			C12
That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous			C13

Contents	
Topic	Sub-topic
UNIT1: SHIPS AND HARBOURS	1.1. Types of ships depending on her cargo. 1.2. Types of harbours.
UNIT 2: SHIP'S SAFETY	2.1. International rules and regulations. International Organizations on Maritime Law. 2.2. Flag State 2.3. Coastal states 2.4. Statutory certificates 2.5. Classification certificates: classification societies.
UNIT 3: NAVIGATION DOCUMENTS	3.1. Other ship's documents
UNIT 4: ARRIVAL AND DEPARTURE	4.1. Clearance documents 4.2. Ship agent and port authorities 4.3. Harbour services

Planning				
Methodologies / tests	Competencies	Ordinary class hours	Student's personal work hours	Total hours
Guest lecture / keynote speech	A11 A50	19	19	38
Seminar	A11 A50 A51 B4 B18	10	10	20
ICT practicals	A11 B1 B5 B18 C13	5	10	15
Student portfolio	A50 A51 B5 B18 C13	1	25	26
Supervised projects	A51 B5 C2 C12 C13	3	30	33

Objective test	A11 A50 A51 C2	2	10	12
Personalized attention		6	0	6

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Presentation classes on shipping business terminology and its particulars. Reports, certificates and technical documents interpretation.
Seminar	Guideline to write and present technical reports. Documentation search, organization, development, preparation and execution of oral presentations.
ICT practicals	Practicals on shipping business terminology using ICTs.
Student portfolio	Set of students' assignment on shipping business terminology and its particulars.
Supervised projects	Writing and presentation of a technical article.
Objective test	The students that attend at least to 80% of keynote speeches and do at least 80% of required assignments could be subjected to continuous evaluation. The students that don't achieve the attendance requirements (80% minimum) must do an examination on subject contents.

Personalized attention	
Methodologies	Description
ICT practicals Seminar Supervised projects Student portfolio	To do ICT practicals and supervised projects and to prepare students' portfolio and seminar activities the professor's supervision and personalized attention is required.

Assessment			
Methodologies	Competencies	Description	Qualification
ICT practicals	A11 B1 B5 B18 C13	ICTs practical at computers' room on maritime terminology.	5
Seminar	A11 A50 A51 B4 B18	Seminar attendance and progress.	10
Guest lecture / keynote speech	A11 A50	Guest lecture/keynote speech attendance and carrying out of proposed tasks.	25
Supervised projects	A51 B5 C2 C12 C13	Carrying out and presentation of a particular proposed assignment.	15
Student portfolio	A50 A51 B5 B18 C13	The student should complete a set of exercises related with shipping business vocabulary. The delivery of such exercises is the student's portfolio.	25
Objective test	A11 A50 A51 C2	Those students that achieve the previously proposed objectives should carry out an extra objective test.	20

Assessment comments
<p>Those students that don't take part in continuous evaluation (80% of class attendance) must complete a comprehensive final test. To carry out such a test the delivery of student portfolio and supervised project is compulsory. The final test is composed of three independent parts (it is necessary to pass all them): written test (50%), listening (25%), and supervised project presentation (25%).</p> <p>Students with part-time enrollment and academic grant of attendance exemption, as established by the "NORMA QUE REGULA EL RÉGIMEN DE DEDICACIÓN AL ESTUDIO DE LOS ESTUDANTES DE GRADO Y MASTER EN LA UDC (Arts. 2.3; 3.b; 4.3 and 7.5) (05/04/2017) may take the mid-term exams, if any, without having to attend 80% of the face-to-face classes, as long as the professors are duly informed at the beginning of the course. Regardless of the foregoing, the professors may assign these students with different assignments/ problems throughout the course to be presented during tutorials, using the TEAMS system if appropriate in the teacher's opinion.</p>
