

Teaching Guide						
Identifying Data				2021/22		
Subject (*)	Clinic Gerontology II		Code	653540007		
Study programme	Máster Universitario en Xerontoloxía					
Descriptors						
Cycle	Period	Year	Type	Credits		
Official Master's Degree	2nd four-month period	First	Optional	4		
Language	Spanish					
Teaching method	Face-to-face					
Prerequisites						
Department	Fisioterapia, Medicina e Ciencias Biomédicas					
Coordinador	Balo García, Aránzazu	E-mail	aranzazu.balo@udc.es			
Lecturers	Balo García, Aránzazu Lodeiro Fernández, Leire Millan Calenti, Jose Carlos Núñez Pérez, Antonio	E-mail	aranzazu.balo@udc.es leire.lodeiro@udc.es jose.millan.calenti@udc.es a.nunez@udc.es			
Web	estudos.udc.es/gl/subject/4540V01/4540007/2021					
General description	Nesta materia describense as principais síndromes xeriátricas así como o modelo de avaliación e intervención na vellez					
Contingency plan	<p>1. Modifications to the contents No changes will be made</p> <p>2. Methodologies</p> <p>*Teaching methodologies that will be maintained</p> <ul style="list-style-type: none">- Lecture session- Seminar- Objective test <p>*Teaching methodologies to be modified</p> <p>The master classes and seminars will be given virtually through the Microsoft Teams platform. The objective test will be carried out using Moodle. Personalized attention for the tutoring of tutored work will be given through Microsoft Teams, Moodle and by e-mail.</p> <p>3. Mechanisms of personalized attention to the student body</p> <ul style="list-style-type: none">- E-mail: Daily. To be used to make consultations and request virtual meetings to solve doubts.- Moodle: Daily. According to the students' needs. They have "thematic forums associated to the topics" of the subject, to formulate the necessary consultations.- Teams: 1 weekly group session for the advancement of the theoretical contents in the time slot assigned to the subject in the faculty's classroom calendar.- In case the students have problems with internet connection, the telephone can be used. <p>4. Modifications in the evaluation</p> <p>The evaluation percentages specified in the teaching guide are maintained, taking the exam virtually through the Moodle tool.</p> <p>*Observations of evaluation:</p> <p>The same as those in the teaching guide are maintained, except that:</p> <ul style="list-style-type: none">- References to the computation of attendance, which will be made according to the sessions that there were face-to-face until the moment in which the face-to-face activity was suspended and from then on the attendance to the virtual classes will be considered in the schedule previously established with the students.- If necessary, the July opportunity will be subject to the same criteria as the 1st opportunity. <p>5. Modifications to the bibliography or webgraphy</p> <p>No changes will be made. All work materials are already digitized in Moodle.</p>					

Study programme competences	
Code	Study programme competences

A1	To be able to recognize the main pathologies and geriatric syndromes through the application of new and innovative work methodologies adapted to the field of gerontology
A2	Be able to apply the method of comprehensive geriatric and gerontological assessment in order to establish the bases for implementing the individualized care plan
A3	To be able to incorporate the Geronto-geriatric intervention methodology into the individualized intervention plans
A4	To be able to assume responsibility for their own professional development and their specialization in both the socio-health and health care for the older people in order to join the interdisciplinary teams of Geronto-geriatric assessment and intervention
A5	Acquire knowledge that allows the student to establish the appropriate Geronto-geriatric resource according to the characteristics of the older person
A8	Know how to apply and integrate the knowledge acquired, the understanding of these, its scientific foundation and its problem-solving capabilities in social and socio-sanitary environments and defined in an imprecise way, including multidisciplinary contexts both researchers and professionals in the field of gerontology
B2	That students know how to apply the knowledge acquired and their ability to solving problems in new or little-known environments within broader (or multidisciplinary) contexts related to gerontology and geriatrics
B3	That students are able to integrate knowledge and face the complexity of making judgments from information that, being incomplete or limited, includes reflections on the social and ethical responsibilities linked to the application of their knowledge and judgments.
B4	That students know how to communicate their conclusions ? and the knowledge and ultimate reasons that support them ? to specialized and non-specialized audiences in a clear and unambiguous way
C1	Adequate oral and written expression in the official languages
C10	Know and apply the scientific method in the writing of projects

Learning outcomes			
Learning outcomes		Study programme competences	
Comprender as características dos principais síndromes xerontológicos		AJ1 AJ4 AC1	BC2 BC3 CC10
Comprender as características da intervención paliativa e ante pacientes terminais		AJ1 AJ2 AJ5 AC1	BC2 BC4 CC1
Desenrolar as capacidades adecuadas para realizar o diagnóstico dos principais síndromes que afectan as persoas maiores		AJ1 AJ2 AJ3 AJ4 AJ5 AC1	BC2 BC3 BC4 CC1
Aplicar o coñecemento adquirido para diagnosticar e tratar os principais síndromes xerontológicos		AJ1 AJ2 AJ3 AJ4 AJ5 AC1	BC2
Razoar metódicamente co resto de miembros do equipo profesional, estando capacitados para discutir a información e interactuar a fin de obter as conclusions mais adecuadas integrándose plenamente		AJ4 AC1	BC2 BC3 BC4 CC1
Comunicarse co resto de profesionais, pacientes e familiares de maneira adecuada preservando os principios éticos e valores morais propios do ámbito da xerontoxía		AJ4 AC1	BC2 BC3 BC4 CC1

Desenvolver habilidades de aprendizaxe para emprender estudos e investigacions na área da xerontoloxía, con capacidade para diseñar e estructurar un proxecto de investigación	AC1 BC3 CC1 BC4

Recomendacións ou
estudo da materia:Asistencia
regular ás clases.Realización das
prácticas de laboratorio.Estudio diario dos
materiais impartidos e da bibliografía básica.Consulta da
bibliografía complementaria recomendada.Participación e
discusión activa nas actividades que se organizan.Realización das
probas obxectivas que se están a realizar.Contribuír ao
logro dun ambiente inmediato sostible e cumplir o obxectivo estratéxico 2 do
"IV Plan de acción do programa FCS Green Campus (2020-2022)", o
traballo documental realizado nesta área:a) A maioria
solicitarase en formato virtual e soporte informático.b) Se está feita
en papel:- Non se
utilizarán plásticos.- Realizaranse
impresións a dúas caras.- Empregarase
papel reciclado.- Evitaranse os
borradores.
