Study programme competences / results	
Code	Study programme competences / results

A4	To master the fundamentals of design in general and fashion design in particular, and to frame them in their historical context, both
	specific and general
A5	To develop the necessary skills to generate creative and innovative ideas
A18	To know the plastic and visual languages in the realm of fashion industry design, in order to understand and interpret the artistic creations
	of fashion garments
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education
	and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the
	avantgarde of its field of study
B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are
	usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
B3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that
	include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
B7	Capacity to analyse trends (critical thinking)
B8	Capacity to plan, organize and manage resources and operations
B9	Capacity to analyse, diagnose and take decisions
B10	Capacity to understand the social and historical-artistic dimension of fashion design and industry, as vehicle for creativity and the quest for
	new and effective solutions
C1	Adequate oral and written expression in the official languages.
C2	Mastering oral and written expression in a foreign language.
C3	Using ICT in working contexts and lifelong learning.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.

	Methodologies		
Methodologies	Methodologies Description		
Guest lecture /	Theoretical classes and oral presentations complemented by the use of audiovisual media in order to transmit the		
keynote speech	fundamentals bases of the knowledge and facilitate their learning.		
Workshop	Training modality oriented to the application of learning in which different methodologies/test - exhibitions, simulations,		
	debates, problem solving, guided practices and so on - can be combined. Through them students develop tasks that eminently		
	practical on a specific topic, with the support and supervision of the professors.		

Supervised projects	Complementary to the lectures and the workshop and in order to promote an autonomous and group learning. The students
	will continuously develop practical analytical work in various formats under the supervision of the professors.
Objective test	Questions about the program will be answered on paper in written form, extensive or graphic format.

	Personalized attention

	Results		
Supervised projects	A4 A5 A18 B1 B2 B3	B3 As a complement to expository and interactive classes and with the objective of 7	
	B4 B5 B7 B8 B9 C1	promoting autonomous and groupal learning. Students will continually develop	
	C3 C8	practical works in different formats under supervision.	
Objective test	A4 A18 B1 B3 B4 B5	Questions about the program will be answered on paper in written form, extensive or	30
	B7 B8 B9 B10 C1 C8	graphic format.	

Assessment comments

0. FIRST OPPORTUNITY. Students to be graded at the first opportunity (January) must meet all of the following requirements: -Attend 80% of the classes. (Regular attendance means active participation in classes and seminars) -80% of works in due dates -Group work in due date -Answer all the questions in the objective test and minimum grade 4 (each part) 1. SECOND OPPORTUNITY (art.18). The second oportunity (July) will only consist in an objective test. The same requirements as in the first opportunity, so students must: 1. Meet all the previous 4 requirements and obtained a grade under 5 in the first objective test. 2. Or they meet the first 3 requirements and did not attend the first objective test.2. CONVOCATORIA ADELANTADA (art. 19). Same as second opportunity.3. CALIFICACIÓN DE NO PRESENTADO. NOT TAKEN GRADE In case of failure to comply with any of the three first points (a, b, c) or point 1, the student will get a "NP" (no presentado) in January and July oportunities. If the student do not complete the first objective test (January) and all the requirements are passed he/she will get a "NP" (January) 4. PART TIME STUDENTS: For students who are part-time enrolled, the percentage corresponding to individual work is maintained (35%), the obligation to deliver group work is eliminated so the percent of the objective test is 65%. Late registration students: -Will have to attend al least 90% of face to face classes -Will have to complete all the individual and collective works in due date -after registration--Works done before registration will also have to be done according to the responsible professor. The other rules without conflicting the previous ones will affect all late registration students. Incoming and outgoing mobility students will be adapted to the same rules as regular students.
