Study programme competences / results

Code	Study programme competences / results
A6	To know and to know how to use the necessary tools to implement, conceptualize and launch collections
A9	To master the logistics process of a fashion firm from a global perspective, from procurement to manufacturing and transportation, with a
	special focus on the typical textile industry processes: selection of materials and fabrics, patternmaking, manufacturing, etc, ?
A13	To know the impact of technology on the different processes of the textile industry
A18	To know the plastic and visual languages in the realm of fashion industry design, in order to understand and interpret the artistic creations
	of fashion garments
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education
	and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the
	avantgarde of its field of study
B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are
	usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
В3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that
	include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
B7	Capacity to analyse trends (critical thinking)
B8	Capacity to plan, organize and manage resources and operations
В9	Capacity to analyse, diagnose and take decisions
C3	Using ICT in working contexts and lifelong learning.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.

	Methodologies
Methodologies	Description
Guest lecture /	Theoretical classes and oral presentations complemented by the use of audiovisual media in order to transmit the
keynote speech	fundamentals bases of the knowledge and facilitate their learning.
Workshop	Training modality oriented to the application of learning in which different methodologies/test - exhibitions, simulations,
	debates, problem solving, guided practices and so on - can be combined. Through them students develop tasks that eminently
	practical on a specific topic, with the support and supervision of the professors.
Supervised projects	Complementary to the lectures and the workshop and in order to promote an autonomous and group learning. The students
	will continuously develop practical analytical work in various formats under the supervision of the professors.
Objective test	Questions about the program will be answered on paper in written form, extensive or graphic format.

	Results		
Supervised projects	A6 A18 B1 B2 B3 B4	As a complement to expository and interactive classes and with the objective of	60
	B5 B7 B8 C3	promoting autonomous and groupal learning. Students will continually develop	
		practical works in different formats under supervision.	
Objective test	A6 B1 B3 B4 B5 B7	Questions about the program will be answered on paper in written form, extensive or	40
	B9 C3 C8	graphic format.	

## **Assessment comments**

An attendance of no less than 80% relative to all the

scheduled face-to-face sessions is require.1. Second

chance evaluation (Art. 18): In order

to qualify for the second chance evaluation, the general attendance conditions

must be met during the course and the supervised project must have been

delivered within the corresponding period.2. Evaluation

in advance call (Art. 19): To be eligible

for the evaluation in advance call, the general attendance conditions must be

met in a previous course and the supervised project must have been delivered

within the corresponding term.3. Qualification

of not presented: If the

supervised project is not delivered within the corresponding term, the

qualification will be "Not presented".4. Students

with recognition of part-time dedication and academic waiver of attendance

exemption: In these cases, as long as they have

official recognition from the management of the center, the minimum attendance

requirement will not be taken into account, keeping the rest of the general

requirements established .Fraudulent behavior in any of the methodologies subject to assessment

will result in the grade of "Fail (0)" in the final assessment
