| Web | | | | | | |
| General description | The objective of the course is to know how to use programming languages ??to obtain and manage digital and documentary information. | | | | | |
| Contingency plan | <ol style="list-style-type: none">1. Modifications to the contents2. Methodologies *Teaching methodologies that are maintained*Teaching methodologies that are modified3. Mechanisms for personalized attention to students4. Modifications in the evaluation *Evaluation observations:5. Modifications to the bibliography or webgraphy | | | | | |

| Study programme competences / results | |
|---------------------------------------|---|
| Code | Study programme competences / results |
| A1 | CE1 - Know and understand the theoretical and methodological principles of information and documentation management to apply them in their professional activity |
| A8 | CE8 - Master the different methods of representation of data, information and knowledge that ensure efficient recovery |
| A10 | CE10 - Design computer tools for representation and retrieval of information from the user's perspective |
| A13 | CE13 - Know and master the techniques and regulations for the creation and authentication, meeting, selection, organization, representation, preservation, recovery, access, dissemination and exchange, and evaluation of resources and information services |
| A19 | CE19 - Determine and apply methods, measures and techniques designed to order, protect, preserve and restore data, information and documents of different nature |
| A20 | CE20 - Master the bases to develop research activities using multidisciplinary methods and principles |
| A22 | CE22 - Acquire computational skills and management of new ICT |
| B1 | CB1 - Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context |
| B2 | CB2 - Apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study |

| | |
|-----|---|
| B3 | CB3 - Be able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments |
| B4 | CB4 - Know how to communicate their conclusions -and the knowledge and ultimate reasons that sustain them- to specialized and non-specialized audiences in a clear and unambiguous way |
| B5 | CB5 - Possess the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous |
| B6 | CG1 - Capacity for cooperation, teamwork and collaborative learning |
| B7 | CG2 - Capacity for reflection and critical reasoning |
| B8 | CG3 - Capacity for planning, organization and management of resources, information and operations |
| B9 | CG4 - Capacity for analysis, diagnosis and decision making |
| B10 | CG5 - Ability to work in an international and global context |
| B11 | CG6 - Ability to understand the importance, value and function of the Digital Information and Documentation Management in the current ICT society |
| C1 | CT1 - Express correctly, both orally and in writing, in the official languages ??of the autonomous community |
| C2 | CT2 - Use the basic tools of information and communication technologies (ICT) necessary for the exercise of their profession and for learning throughout their lives |
| C3 | CT3 - Develop oneself for the exercise of a citizenship that respects democratic culture, human rights and the gender perspective |
| C4 | CT4 - Understand the importance of the entrepreneurial culture and know the means available to entrepreneurs |
| C5 | CT5 - Acquire skills for life and habits, routines and healthy lifestyles |
| C6 | CT6 - Develop the ability to work in interdisciplinary or transdisciplinary teams, to offer proposals that contribute to a sustainable environmental, economic, political and social development |
| C7 | CT7 - Assess the importance of research, innovation and technological development in the socio-economic and cultural progress of society |
| C8 | CT8 - Have the ability to manage time and resources: develop plans, prioritize activities, identify criticisms, establish deadlines and comply with them |

| Learning outcomes | | | |
|--|--|---|--|
| Learning outcomes | | Study programme competences / results | |
| Saber construir unha base de datos nun entorno cliente-servidor multiusuario | | A1 A8 A10 A13 A19 A20 A22 B8 B9 B10 B11 | B1 B2 B3 B4 B5 B6 B7 C2 C3 C4 C5 C6 C7 C8 |

| | | |
|---|---|--|
| Saber obter información dunha base de datos relacional empregando a linguaxe SQL. | A1 A8 A10 A13 A19 A20 A22 B8 B9 B10 B11 | B1 B2 B3 B4 B5 B6 B7 C2 C3 C4 C5 C6 C7 C8 |
| Saber resolver problemas básicos empregando as linguaxes de programación más relevantes no campo da ciencia de datos. | A1 A8 A10 A13 A19 A20 A22 B8 B9 B10 B11 | B1 B2 B3 B4 B5 B6 B7 C1 C2 C3 C4 C5 C6 C7 C8 |

| Contents | | |
|-----------------------------|---|--|
| Topic | Sub-topic | |
| Database management systems | Creation of databases in multi-user environments Querying information in databases using SQL language | |
| Programming languages | Basic programming concepts: algorithms, programs, programming languages, ... Control statements: sequential, conditional, repetitive, ... Architecture of a program: functions and modules Simple data structures: registers, vectors, texts | |

| Planning | | | | |

| Personalized attention | | 0 | 0 | 0 |

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| Methodologies | |
|---------------------------------|--|
| Methodologies | Description |
| ICT practicals | Metodoloxía que permite ao alumnado aprender de forma efectiva, a través de actividades de carácter práctico (demostracións, simulacións, etc.) a teoría dun ámbito de coñecemento, mediante a utilización das tecnoloxías da información e as comunicacións. As TIC supoñen un excelente soporte e canle para o tratamiento da información e aplicación práctica de coñecementos, facilitando a aprendizaxe e o desenvolvemento de habilidades por parte do alumnado. |
| Supervised projects | Metodoloxía deseñada para promover a aprendizaxe autónoma dos estudiantes, baixo a tutela do profesor e en escenarios variados (académicos e profesionais). Está referida prioritariamente á aprendizaxe do ?como facer as cousas?. Constitúe unha opción baseada na asunción polos estudiantes da responsabilidade pola súa propia aprendizaxe. Este sistema de ensino baséase en dous elementos básicos: a aprendizaxe independente do estudiantado e o seguimento desa aprendizaxe polo profesor-titor. |
| Mixed objective/subjective test | Proba que integra preguntas tipo de probas de ensaio e preguntas tipo de probas obxectivas. En canto ás primeiras, recolle preguntas abertas de desenvolvemento; as segundas, poden combinar preguntas de resposta múltiple, de ordenación, de respuesta breve, de discriminación, de completar e/ou de asociación |
| Guest lecture / keynote speech | Exposición oral complementada co uso de medios audiovisuais e a introdución de algunas preguntas dirixidas aos estudiantes, coa finalidade de transmitir coñecementos e facilitar a aprendizaxe. A clase maxistral é tamén coñecida como ?conferencia?, ?método expositivo? ou ?lección maxistral?. Esta última modalidade adóitase reservar a un tipo especial de lección impartida por un profesor en ocasións especiais, cun contido que supón unha elaboración orixinal e baseada no uso case exclusivo da palabra como vía de transmisión da información á audiencia. |

| Personalized attention | |
|--------------------------------|--|
| Methodologies | Description |
| Guest lecture / keynote speech | Se estima que entre o alumnado haberá diferencias notables tanto en canto á sua familiarización con conceptos e termos informáticos, como en canto ás habilidades para o manexo de ferramentas informáticas. Por iso, prevese desenvolver unha atención personalizada para as prácticas a través de TIC e para os traballos tutelados. A atención personalizada desenvolverase de forma individual mediante a realización de titorías mediante ferramentas informáticas e Internet (correo electrónico, Moodle o Teams). |
| ICT practicals | |
| Supervised projects | |

| Assessment | | | |
|----------------|--|--|---------------|
| Methodologies | Competencies / Results | Description | Qualification |
| ICT practicals | A1 A8 A10 A13 A19 A20 A22 B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 C1 C2 C3 C4 C5 C6 C7 C8 | Avaliarase a solución aplicada polos estudiantes ao problema proposto e a interacción entre os membros do grupo. | 20 |

| | | | |
|---------------------------------|--|--|----|
| Supervised projects | A1 A8 A10 A13 A19 A20 A22 B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 C1 C2 C3 C4 C5 C6 C7 C8 | Avaliarase a calidade dos traballos realizados. | 40 |
| Mixed objective/subjective test | A1 A8 A10 A13 A19 A20 A22 B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 C1 C2 C3 C4 C5 C6 C7 C8 | Proba escrita individual sobre contido teórico-práctico. | 40 |

Assessment comments

PRIMEIRA OPORTUNIDADE

Para aprobar a materia é obligatorio:

Unha NOTA MÍNIMA de 2 (sobre 4) nos traballos tutelados.Unha NOTA MÍNIMA de 2 (sobre 4) na proba mixta.De non obter a nota mínima nos traballos tutelados ou na proba mixta, a nota máxima global da materia non será superior a un 4,5.

Terá cualificación de NON PRESENTADO calquera estudiante que non realice a proba mixta.

SEGUNDA OPORTUNIDADE

Poderán presentarse á segunda oportunidade ÚNICAMENTE aqueles/as estudiantes que non superen a materia na primeira oportunidade. A recuperación de cada unha das partes farase da seguinte forma:

Traballos tutelados (40% da nota final): realización e presentación nas mesmas condicións que na primeira oportunidade.Proba escrita teórica e práctica (60% da nota final): corresponde á proba mixta e á recuperación da nota dos estudios de casos.Se un/unha estudiante decide non realizar a recuperación de algunha das partes, conservará a nota obtida na primeira oportunidade nesa parte.

Os/as estudiantes con nota inferior a 2 nos traballos tutelados na primeira oportunidade deberán recuperarlos obligatoriamente na segunda oportunidade para aprobar a materia.

Para aprobar a materia é obligatorio obter unha nota mínima de 2 sobre 4 no trabalho tutelado, e de 3 sobre 6 na proba mixta.

Terá cualificación de NON PRESENTADO calquera estudiante que non opte á recuperación de ningunha dúas partes.

DISPENSA ACADÉMICA

Dado que a asistencia ás sesións presenciais non é obligatoria, aqueles/as estudiantes con matrícula a tempo parcial e dispensa académica que lles exime da asistencia ás clases terán as mesmas condicións que o resto do alumnado.

OPORTUNIDADE ADIANTADA

Utilizaranse os criterios da segunda oportunidade

IMPLICACIÓNS DO PLAXIO

A realización fraudulenta de probas ou actividades de avaliación, unha vez verificado, implicará directamente unha nota de "0" na materia na oportunidade correspondente.

Sources of information

| | |
|---------------|---|
| Basic | Dado o carácter esencialmente práctico desta asignatura, a bibliografía estará composta polos manuais das ferramentas informáticas descritas. |
| Complementary | |
