Methodologies	
Methodologies	Description
Case study	Explicaránse casos practicos de análise sectorial e teoría de xogos como complemento das clases maxistras e das presentacións orais do profesor nas aulas. Realizarase un traballo de análise estrutural dun sector. Recomendacións: 1.- A entrega dos traballos documentais que se realicen nesta materia: 1.1. Solicitarase en formato virtual e/ou soporte informático 1.2. Realizarase a través de Moodle, en formato dixital sen necesidade de imprimilos
Seminar	Ralizaranse tutorías de grupo de 15 alumnos por grupo. Comunicarase con antelación o día e a hora de realización das tutorías. Destinaranse a resolución de dudas e a orientación dos estudantes na realización de casos e traballos sectoriales.
Mixed objective/subjective test	Realizaránse de xeito continuo probas sobre o contido dos temas explicados e comentados cos estudantes. Inclúiran probas obxetivas e probas cortas de exposición, discusión o comentario.
Guest lecture / keynote speech	Explicación na clase dos diferentes temas coa axuda de transparencias e medios audiovisuais

Personalized attention	
Methodologies	Description
Case study	For doubts about the development of two students' work on the analysis of the structure of a sector. For students with recognition of part-time dedication and academic exemption from attendance exemption, a specific tutoring schedule compatible with their dedication will be agreed upon at the beginning of the course. There will be group tutorials from the 5th week of the semester

Assessment comments

A) APPRAISAL REGULATION:

Assessment conditions: It is forbidden to access the exam room with a device that allows external communication and/or information storage.

Identification of the student: The student must certify his personality in accordance with current regulations.

B) TYPES OF QUALIFICATION

Qualification of not presented: Corresponds to the student, when he only participates in assessment activities that have a weighting of less than 20% of the final qualification, regardless of the qualification achieved.

Students with recognition of part-time dedication and academic exemption from attendance exemption: Except for the dates approved by the Faculty Board for the final objective test, for the remaining tests, a specific calendar of dates compatible with their dedication will be agreed upon at the beginning of the course.

C) ASSESSMENT OPPORTUNITIES:

First opportunity: the evaluation criteria previously indicated in this section will be applied.

Second opportunity: The evaluation criteria are the same for all the evaluation opportunities. On the second opportunity it will only be possible to repeat the individual activities, while for the group activities the qualification obtained on the first opportunity will be maintained.

Thus, in the 2nd opportunity the student will have the possibility of reaching 100% of the evaluation.

Advanced call: in an advanced call it is possible to recover the points of the continuous assessment (problem solving, short answer tests, interventions during the maxistras sessions) through additional questions to the final objective test.
