General description	This course aims to provide a detailed survey of topics in modern English grammar covering up to the simple sentence. The main emphasis is on description rather than grammatical theory, and we shall follow the broadly-based approach associated with the grammars of Quirk and his associates. Attention will also be paid to the work of other authors of the Functionalist and Systemic tradition. In the practical classes, students will be trained in the use of grammatical structures at advanced level, since an understanding of the mechanics of language is no substitute for active use and control of the language itself. Desired learning outcome for linguistic competence: C1

Workbook	Compilation of printed texts and written documents, collected and edited, as a tool to prepare and consolidate the contents and competences of the course.
Workshop	Applied learning situation incorporating a range of supervised learning and testing techniques (presentation, simulation, debate, problem-solving, guided practice, etc.) with a strongly practical focus, under the guidance of the teacher.
Supervised projects	Students will have to submit a written project. The objectives, characteristics, supporting material and format of presentation of the project will be explained at the beginning of the course. The work will be carried out under the supervision and guidance of the lecturer.

Assessment comments

IMPORTANT

In order to pass this course, a minimum of 5 out of 10 in the final mark is required. A score of 4 out of 10 is the minimum required in each of the parts of the course (workshop/supervised projects/oral presentation/mixed test).

Any academic dishonesty (plagiarism, cheating in exams, etc.) will be penalised in accordance with the provisions of the 'Normas de avaliación, revisión e reclamación das cualificacións dos estudos de grao e mestrado universitario', article 14. To detect plagiarism, the application Turnitin could be used. This application recognises papers previously turned in by other people (or the student him/herself) at this university or other universities.

Deadlines for assignments are strict. Late arrivals (up to 5 days) will be penalised (25% off the final mark), unless they are duly justified.

All the extra-credit material carried out by the students during the course could be awarded up to an extra 5% of the final mark. This can include voluntary work, alternative readings or any other activity proposed and accepted by students and teachers.

The students who do not attend the official exam will be given a grade of NP(absent) if they have not handed in more than 50% of the continuous assessment activities.

The dates for the supervised projects, oral presentation and mixed objective tests will be announced well ahead of time.

July opportunity: Those students with less than a 4 in each of the parts evaluated in the course (even if the average is superior to 5) will have to sit for the "second opportunity exam session" in July, where students can retake those parts they have failed, according to the following distribution of percentages: Supervised project (20%), oral presentation (20%), written tasks similar to those evaluated during the course (20%), mixed test about the contents of the course (40%).

Students sitting the December exam (final exam brought forward) will be assessed according to the criteria specified for the July opportunity.

Students who are officially registered as part time, and have been granted permission not to attend classes, as stipulated in the regulations of this University, will be assessed in either of the opportunities according to the same criteria specified for the second opportunity.

Diversity:

This module can be adapted to students who need support for their particular situation (physical, visual, auditory, cognitive, learning process, or related to mental health). If necessary, students should contact the services available in UDC/in their school or faculty, or the Unidad de Atención ala Diversidad (ADI) at the beginning of each academic semester in the timeframe officially established

(<https://www.udc.es/cufie/adi/apoioalumnado/>); alternatively, they can contact the ADI tutor in the Faculty of Philology at the following address: pat.filoloxia@udc.gal).

IMPORTANTE: Para superar a materia, a suma da proba final, o traballo tutelado, a presentación oral e demais actividades avaliadas deberá ser 5 sobre 10, tendo en conta que a cualificación mínima de cada unha das partes (actividades do obradoiro/ traballo tutelado e exposición oral do mesmo/proba mixta) deberá ser de 4 puntos sobre 10.

Aplicarase unha penalización do 25% sobre a cualificación final de traballos e actividades se estes son entregados fóra de prazo sen causa xustificada. Os alumnos/as que non se presenten o día das probas obxectivas de xuño ou xullo acadarán a cualificación de NP, se non entregaron máis do 50% de actividades durante o curso.

AVALIACIÓN XULLO: Os/as estudantes que non presenten o traballo tutelado, ou que non teñan acadado un 4 en cada un dos bloques avaliados (aínda que a nota media sexa superior a 5) terán que ir á oportunidade de xullo, na que cada estudante terá que demostrar ter acadado as competencias da materia mediante a entrega dun traballo escrito e defensa oral do mesmo en substitución do traballo tutelado, a superación de actividades escritas semellantes ás avaliadas ao longo do curso e, finalmente, mediante unha proba mixta sobre os contidos do curso. As instrucións e porcentaxes concretas faranse públicas despois da publicación das cualificacións finais en xuño.

Alumnado con dispensa: O alumnado matriculado a tempo parcial e que teña concedida unha dispensa académica deberá porse en contacto co profesorado da materia a principio de curso para planificar, en cada situación concreta e individual, os axustes necesarios na avaliación, no tocante as porcentaxes de "obradoiro", "traballos tutelados" e "presentación oral".
