

Teaching Guide						
Identifying Data				2022/23		
Subject (*)	Data Warehousing		Code	614G01043		
Study programme	Grao en Enxeñaría Informática					
Descriptors						
Cycle	Period	Year	Type	Credits		
Graduate	2nd four-month period	Third	Optional	6		
Language	Spanish/Galician					
Teaching method	Face-to-face					
Prerequisites						
Department	Ciencias da Computación e Tecnoloxías da Información/Computación					
Coordinador	Ladra González, Susana	E-mail	susana.ladra@udc.es			
Lecturers	Ladra González, Susana Silva Coira, Fernando	E-mail	susana.ladra@udc.es fernando.silva@udc.es			
Web	moodle.udc.es					
General description	As "Data Warehousing" we understand everything related to the database of the analytic environment and the course focuses on this matter					

Study programme competences	
Code	Study programme competences
A46	Capacidade de integrar solucións de tecnoloxías da información e as comunicacións e procesos empresariais para satisfacer as necesidades de información das organizacións, permitíndoles alcanzar os seus obxectivos de forma efectiva e eficiente, e dándolles así vantaxes competitivas.
B3	Capacidade de análise e síntese
B5	Habilidades de xestión da información
C3	Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para a aprendizaxe ao longo da súa vida.
C7	Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida.
C8	Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.

Learning outcomes			
Learning outcomes			Study programme competences
Coñecer os conceptos de bases de datos necesarios para afrontar o proceso ETL, entender o proceso analítico e diferencial do operacional, coñecer a arquitectura dun almacén de datos e saber efectuar o deseño e a explotación do mesmo, coa orientación á toma de decisións e incluíndo a utilización de ferramentas de minería de datos.	A46	B3 B5	C3 C7 C8

Contents	
Topic	Sub-topic
Introduction to Business Intelligence and Data Warehouse	Decision Making Analytical Environment Concept of Data Warehouse Types of Analytical Databases
Data Warehouse Architecture	Data Warehouse Components Data Warehouse Development Orientations ETL Process Metadata

Data Warehouse Design	Multidimensional Modelling Conceptual Modelling Logical Modelling Advanced Design Concepts
Data Warehouse Exploitation	Data Mining Analytical SQL

Planning				
Methodologies / tests	Competencies	Ordinary class hours	Student?s personal work hours	Total hours
Laboratory practice	A46 B3 B5 C3 C7 C8	14	21	35
Problem solving	A46 B3 B5 C3 C7 C8	7	14	21
Workbook	A46 B3 B5 C7 C8	0	14	14
Mixed objective/subjective test	A46 B3 B5 C3 C7 C8	3	0	3
Supervised projects	A46 B3 B5 C3 C7 C8	0	14	14
Guest lecture / keynote speech	A46 B3 B5 C7 C8	21	42	63
Personalized attention		0		0

(\*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Laboratory practice	Son clases nas que se desenvolven as competencias procedimentais relacionadas cos contidos da asignatura. Nelas realizaranse probas e exercicios cuxo obxectivo é madurar os conceptos das clases teóricas, e introduciranse novos conceptos de carácter práctico que acompañaranse de exercicios.
Problem solving	Clases nas que se discutirán as estrategias de solución de diversos problemas propostos.
Workbook	Se propondrá a lectura de diversos traballos que complementen e axuden a entender os conceptos plantexados.
Mixed objective/subjective test	Examen da asignatura que combina conceptos teóricos, prácticos e problemas.
Supervised projects	Trabajos realizados baixo a orientación do profesorado, cuxo obxectivo é que os estudiantes asuman a responsabilidade do seu propio aprendizaxe e que aprenden "cómo hacer".
Guest lecture / keynote speech	Clases teóricas nas que se expoñen os contidos fundamentais da materia, que poden acompañarse da propuesta e a resolución de exemplos.

Personalized attention	
Methodologies	Description
Laboratory practice	Both for the ICT practicals and for problem solving, the teaching staff will provide solutions and/or answer the doubts and questions that may arise. A more personalized attention will be developed in the tutorials.
Problem solving	

Assessment			
Methodologies	Competencies	Description	Qualification
Laboratory practice	A46 B3 B5 C3 C7 C8	The maximum mark will be 4 points out of 10 of the subject. The practice must be done individually or in small groups and will be defended orally.	40

Mixed objective/subjective test	A46 B3 B5 C3 C7 C8	The maximum mark will be 3.5 points out of 10 for the subject. Several tests will be held during the course, dealing with theoretical concepts and practical assimilation of the subject.  In order to pass the course as a whole, a MINIMUM grade of 0.75 (out of 2) must be obtained in the final (theoretical) mixed test. If this is not the case, the maximum grade for the subject will not be higher than a 4.9 (and therefore the subject will be considered a FAIL).	35
Supervised projects	A46 B3 B5 C3 C7 C8	The maximum mark of the works will be 2.5 points.	25

#### Assessment comments

##### NOT SHOW:

At the first opportunity, the student who does not do all the mixed tests will have the grade of NOT SHOW.

At the second opportunity any of the parts of the evaluation can be recovered, so that the grades of this opportunity always substitute those of the first one. The student who does not make up any part of the evaluation will have a grade of NO SHOW.

In order to pass the course, it is mandatory to obtain a minimum grade of 0.75 out of 2 in the theoretical mixed test.

##### ACADEMIC DISPENSATION:

Students officially enrolled part-time who have been granted an official dispensation from attending classes, as stipulated in the regulations of this University, must contact with the responsible of the course within the first two weeks to establish the conditions for submitting and defending the practical exercises and the supervised project.

##### ADVANCED OPPORTUNITY:

The evaluation in the advanced opportunity will consist of: mixed test (35% of the qualification), practice (40% of the qualification) and supervised project (25% of the qualification). In order to pass the course, it is mandatory to obtain a minimum grade of 0.75 out of 2 in the theoretical part of the mixed test.
