Methodologies	
Methodologies	Description

Supervised projects	The students will develop a work that will be supervised by the teacher and, therefore, will have tutorial support. There will be small groups of students (70% of the final grade). The objective of the work is the application of the concepts and fundamentals that are explained in class and the basic structure will be related to the order and structure of the topics that are explained throughout the course. The teacher will gradually supervise and supervise the group so that the group can gradually develop the work as the topic develops. In this way, an interactive teaching, practice and active student participation is achieved throughout the learning process. The delivery of the work is scheduled for the last week of the school period, although it will be adjusted to the student's time availability.
Multiple-choice questions	Individual multiple answer test (30% of the final grade). Each poorly answered question penalizes the test score (three poorly answered questions counter correct one) and no question can be left blank.
Events academic / information	The students must also attend complementary activities of a practical nature (conferences, seminars, workshops or similar) in order to learn practical cases presented by their protagonists; also in a group, the contents of said activities should be analyzed and this analysis should be reflected in the corresponding works that will be subject to evaluation.
Oral presentation	Defensa dos contidos aplicados nos diferentes proxectos que se solicitan.
Guest lecture / keynote speech	Explanation of the contents of the theoretical program of the subject through the oral presentation, guided by the use of presentations, through audiovisual media. The slides will be delivered to the students.

Other comments

To help achieve a sustained immediate environment and meet the objective of action number 5: "Healthy and sustainable environmental and social teaching and research" of the "Green Campus Ferrol Action Plan". The delivery of the documentary works that are made in this matter will be requested in virtual format and / or computer support. It will be done through Moodle, in digital format without the need to print them. Plastics will not be used. Double-sided prints will be made. Recycled paper will be used. Printing of drafts will be avoided. The importance of ethical principles related to the values of sustainability in personal and professional behavior must be taken into account.
