| Methodologies                  |   |
|--------------------------------|---|
| Methodologies                  | Description   |
| Guest lecture / keynote speech | Presentation classes on ship to ship, ship to shore communications, cargo handling, inspections, etc.   |
| Simulation                     | Training on several situational conversations related with on board duties, such as manoeuvring, watch relief, etc.   |
| ICT practicals                 | Practicals on maritime communications vocabulary.   |
| Student portfolio              | Set of students' assignments on maritime communications terminology.  |
| Supervised projects            | Writing and presentation of a technical article.  |
| Directed discussion            | Conversation training and professional documentation management.  |
| Objective test                 | The students that attend at least to 80% of keynote speeches and do at least 80% of required assignments could be subjected to continuous evaluation. The students that don't achieve the attendance requirements (80% minimum) must do an examination on subject contents. |

| Assessment comments   |
|---|
| <p>Those students that don't take part in continuous evaluation (80% of class attendance) must complete a comprehensive final test. To carry out such a test the delivery of student portfolio and supervised project is compulsory. The final test is composed of four independent parts (it is necessary to pass all them): written test (10%), listening (10%), simulation or role playing test (45%), and supervised project presentation (25%). The student's portfolio is also assessed in 10%.</p> <p>The assessment criteria reflected on table A-II/1 of the STCW Code, and also reflected in the Quality System, are taken into account to design and perform the assessment.</p> <p>Students with part-time enrollment and academic grant of attendance exemption, as established by the "NORMA QUE REGULA EL RÉGIMEN DE DEDICACIÓN AL ESTUDIO DE LOS ESTUDANTES DE GRADO Y MASTER EN LA UDC (Arts. 2.3; 3.b; 4.3 and 7.5 ) (05/04/2017) may take the mid-term exams, if any, without having to attend 80% of the face-to-face classes, as long as the professors are duly informed at the beginning of the course. Regardless of the foregoing, the professors may assign these students with different assignments/ problems throughout the course to be presented during tutorials, using the TEAMS system if appropriate in the teacher's opinion.</p> <p>Fraudulent performance of tests or evaluation activities, once verified, will directly imply the grade "0" in the subject in the corresponding cycle, thus invalidating any grade obtained in all the evaluation activities for the extraordinary cycle.</p> |
